RECEIVED

Describe Cause of Problem and Remedial Action Taken.*

Over pressure on the stuffing box caused the packing to blow out on the well head and spill 8 bbls of oil onto the ground. A vacuum truck recovered 6 bbls of oil and the packing was replaced.

Describe Area Affected and Cleanup Action Taken.*

The affected area is approximately 105' x 40' on location. Remediation will be completed according to a remediation plan approved by NMOCD and the BLM.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: Coyote 21 #2

This is to inform you that Oxy Permian had a leak at the Coyote 21 #2 on July 23, 2015. Oxy spilled 5 bbls of oil and 30 bbls of produced water due to back pressure causing the stuffing box packing to leak on the well head. The preliminary report shows the leak measuring approximately 20' x 10' on location. A vacuum truck recovered 30 bbls of fluids. The release is located in the U/L N of Section 21, T24S, R29E of Eddy County, NM. BBC International will remediate the location at a later date and an initial C-141 will follow. Driving directions: From Loving, take US 285 to Malaga, turn east on Duarte Rd and go 2.5-3 miles, turn right on McDonald Rd, cross the Pecos River, turn left at the first white cattleguard and go 0.25 mile to battery and well location. API# 30-15-29864, GPS coordinates: N 32.19824° W 103.99020°
