Reference is made to your recent application for an exception to Division Rule 19.15.12.9A. NMAC of the Division Rules and Regulations to permit the above-described well to commingle production from the subject pools in the wellbore.

It appears that the subject well qualifies for approval for such exception pursuant to the provisions of Division Rule 19.15.12.11A. In accordance with Division Rule 19.15.12.11A.(6) NMAC, the production attributed to any commingled pool within the well shall not exceed the allowable applicable to that pool.

The assignment of allowable and allocation of production for the subject well shall be based upon the results of well tests to be conducted on several Britt B Lease wells that will be drilled and downhole commingled in the Skaggs; Drinkard, Weir Blinebry, Monument; Tubb, and Skaggs; Glorieta Pools in the near future.

The applicant shall submit the final allocation of production to the Division's Engineering and Geological Services Bureau within 30-days following the acquisition of test data from the offset wells.

This Order is subject to like approval from the Bureau of Land Management.

Pursuant to Division Rule 19.15.12.11B. NMAC, the commingling authority granted herein may be rescinded by the Division Director if conservation is not being best served by such commingling.
