Re: Administrative Pool/Lease Commingling Order PLC-415

Dear Mr. Catanach:

WPX Energy Production, LLC ("WPX") requests an amendment to Order PLC-415 issued on April 10, 2015, to clarify the geographic areas of common ownership approved for surface commingling in conformance with NMAC 19.15.12.7 et. seq. The current order approves surface commingling for five specific wells rather than the geographic areas of common ownership associated with those wells.

NMAC 19.15.12.9(B) sets forth the requirement for lease segregation of oil and gas production as follows:

An operator shall not transport oil or gas from a *lease* until it has been accurately measured or determined by other methods acceptable to the division. An operator shall at all times segregate production from *each lease*. The combination or commingling of production, before marketing, with production from *other leases* without division approval is prohibited.

For purposes of implementing this provision, NMAC 19.15.12.7(C) defines the referenced "lease" or "leases" as follows:

"Lease" means a contiguous geographical area of identical ownership overlying a pool or portion of a pool. An area pooled, unitized or communitized, either by agreement or by division order, or a participating area shall constitute a lease.

Accordingly, for surface lease commingling purposes, a spacing and proration unit is considered a "lease" and authorization to surface commingle is regulated and implemented on a "lease" basis rather than a well by well by well basis. Indeed, the word "well" does not appear anywhere in the Division's surface commingling rules. As a result, the applicable "leases" (the contiguous

geographical areas of identical ownership overlying a pool or portion of a pool) should be identified in all Division orders approving surface commingling as the source of production for which surface commingling is approved.

As currently crafted Order PLC-415 does not provide surface commingling approval for specified "leases" but instead for only five specific wells. This results in a circumstance where it appears WPX, or a subsequent operator, will be required to go through the application and notice process to obtain additional Division approval to add infill wells to the central tank battery approved for surface lease commingling. That approach is inconsistent with the language and intent of NMAC 19.15.12.7 through 19.15.12.10.

For these reasons, WPX respectfully requests that the Division amend Order PLC-415 to approve surface commingling between the following four "leases" identified in WPX's March 16, 2015 Application:

- The S/2 N/2 of Section 5, T-23-N, R-8-W, currently dedicated to the Chaco 2308-04L 283H Well (30-045-35608);
- The N/2 S/2 of Section 5, T-23-N, R-8-W, currently dedicated to the Chaco 2308-04L 284H Well (30-045-35607);
- The S/2 S/2 of Section 5, T-23-N, R-8-W, currently dedicated to the Chaco 2308-04L 459H Well (30-045-35627) and the Chaco 2308-08A 285H Well (30-045-35643); and
- The NE/4 NE/4 of Section 8, T-23-N, R-8-W, currently dedicated to the Warner-Caldwell 1A Well (30-045-35505).

I am happy to meet with you to discuss the issues further if that would be helpful.

Sincerely,

Michael H. Feldewert

Re: **Application of WPX Energy Production, LLC for administrative approval to surface commingle production from the leases associated with Chaco 2308-04L 283H Well, the Chaco 2308-04L 284H Well, the Chaco 2308-04L 459H Well, the Chaco 2308-08A 285H Well, to be completed in the Basin Mancos Gas Pool (97232) and the Nageezi Gallup Pool (47540), and the Warner Caldwell 1A Well, completed in the Nageezi Gallup Pool (47540) Sections 5 and 8, Township 23 North, Range 8 West, N.M.P.M., San Juan County, New Mexico.**

Dear Mr. Catanach:

WPX Energy Production, LLC (OGRID 120782) seeks approval to surface commingle production from the 160-acre proposed spacing unit comprised of the S/2 N/2 of Section 5, Township 23 North, Range 8 West (dedicated to the **Chaco 2308-04L 283H Well** (30-045-35608)) with production from the 160-acre proposed spacing unit comprised of the N/2 S/2 of Section 5 (dedicated to the **Chaco 2308-04L 284H Well** (30-045-35607)) and the 160-acre proposed spacing unit comprised of the S/2 S/2 of Section 5 (dedicated to the **Chaco 2308-04L 459H Well** (30-045-35627) and the **Chaco 2308-08A 285H Well** (API, pending)). Each well will produce from the Basin Mancos Gas Pool (97232) and the Nageezi Gallup Pool (47540). Production from these wells will also be commingled with production from the 40-acre tract located in the NE/4 NE/4 of Section 8 (dedicated to the **Warner Caldwell 1A Well** (30-045-35505)), a vertical well which produces from the Nageezi Gallup Pool (47540).

Exhibit 1 identifies the each of the wells, the proposed non-standard spacing units, the Basin Mancos Gas Pool, the Nageezi Gallup Pool, the two allottee leases impacted by this application (N0G-1401-1876 and N0G-1401-1868), and the two federal leases impacted by this application (NMNM 018463 and NMNM 109399). Under NMAC 19.15.12.7, each non-standard spacing area is considered a separate "lease." Pursuant to NMAC 19.15.12.10.C, WPX seeks authority to surface commingle production from these separate leases at a common surface facility located in Section 4. Oil and gas production from each of these geographic areas will be

Exhibit 4 is a diagram of the surface facilities.

Exhibit 5 is a list of the parties affected by this request for approval to surface commingle. A copy of this application with all attachments has been sent by certified mail to all affected parties advising them that if they have an objection they must file it in writing with the division within 20 days from the date the division receives WPX's application. Since federal and trust lands are involved, pursuant to NMAC 19.15.12.10(C)(4)(h) WPX is also seeking authority for surface commingling from the Bureau of Land Management – Farmington Office. The BLM, along with the Federal Indian Minerals Office, has been provided a copy of this application and all exhibits.

Exhibit 6 is proof of the publication of this application in the Farmington Daily Times directed by name to un-locatable interests. This public notice advises the named party of an obligation to file any objection in writing with the Division within 20 days of publication.

Your attention to this matter is appreciated.

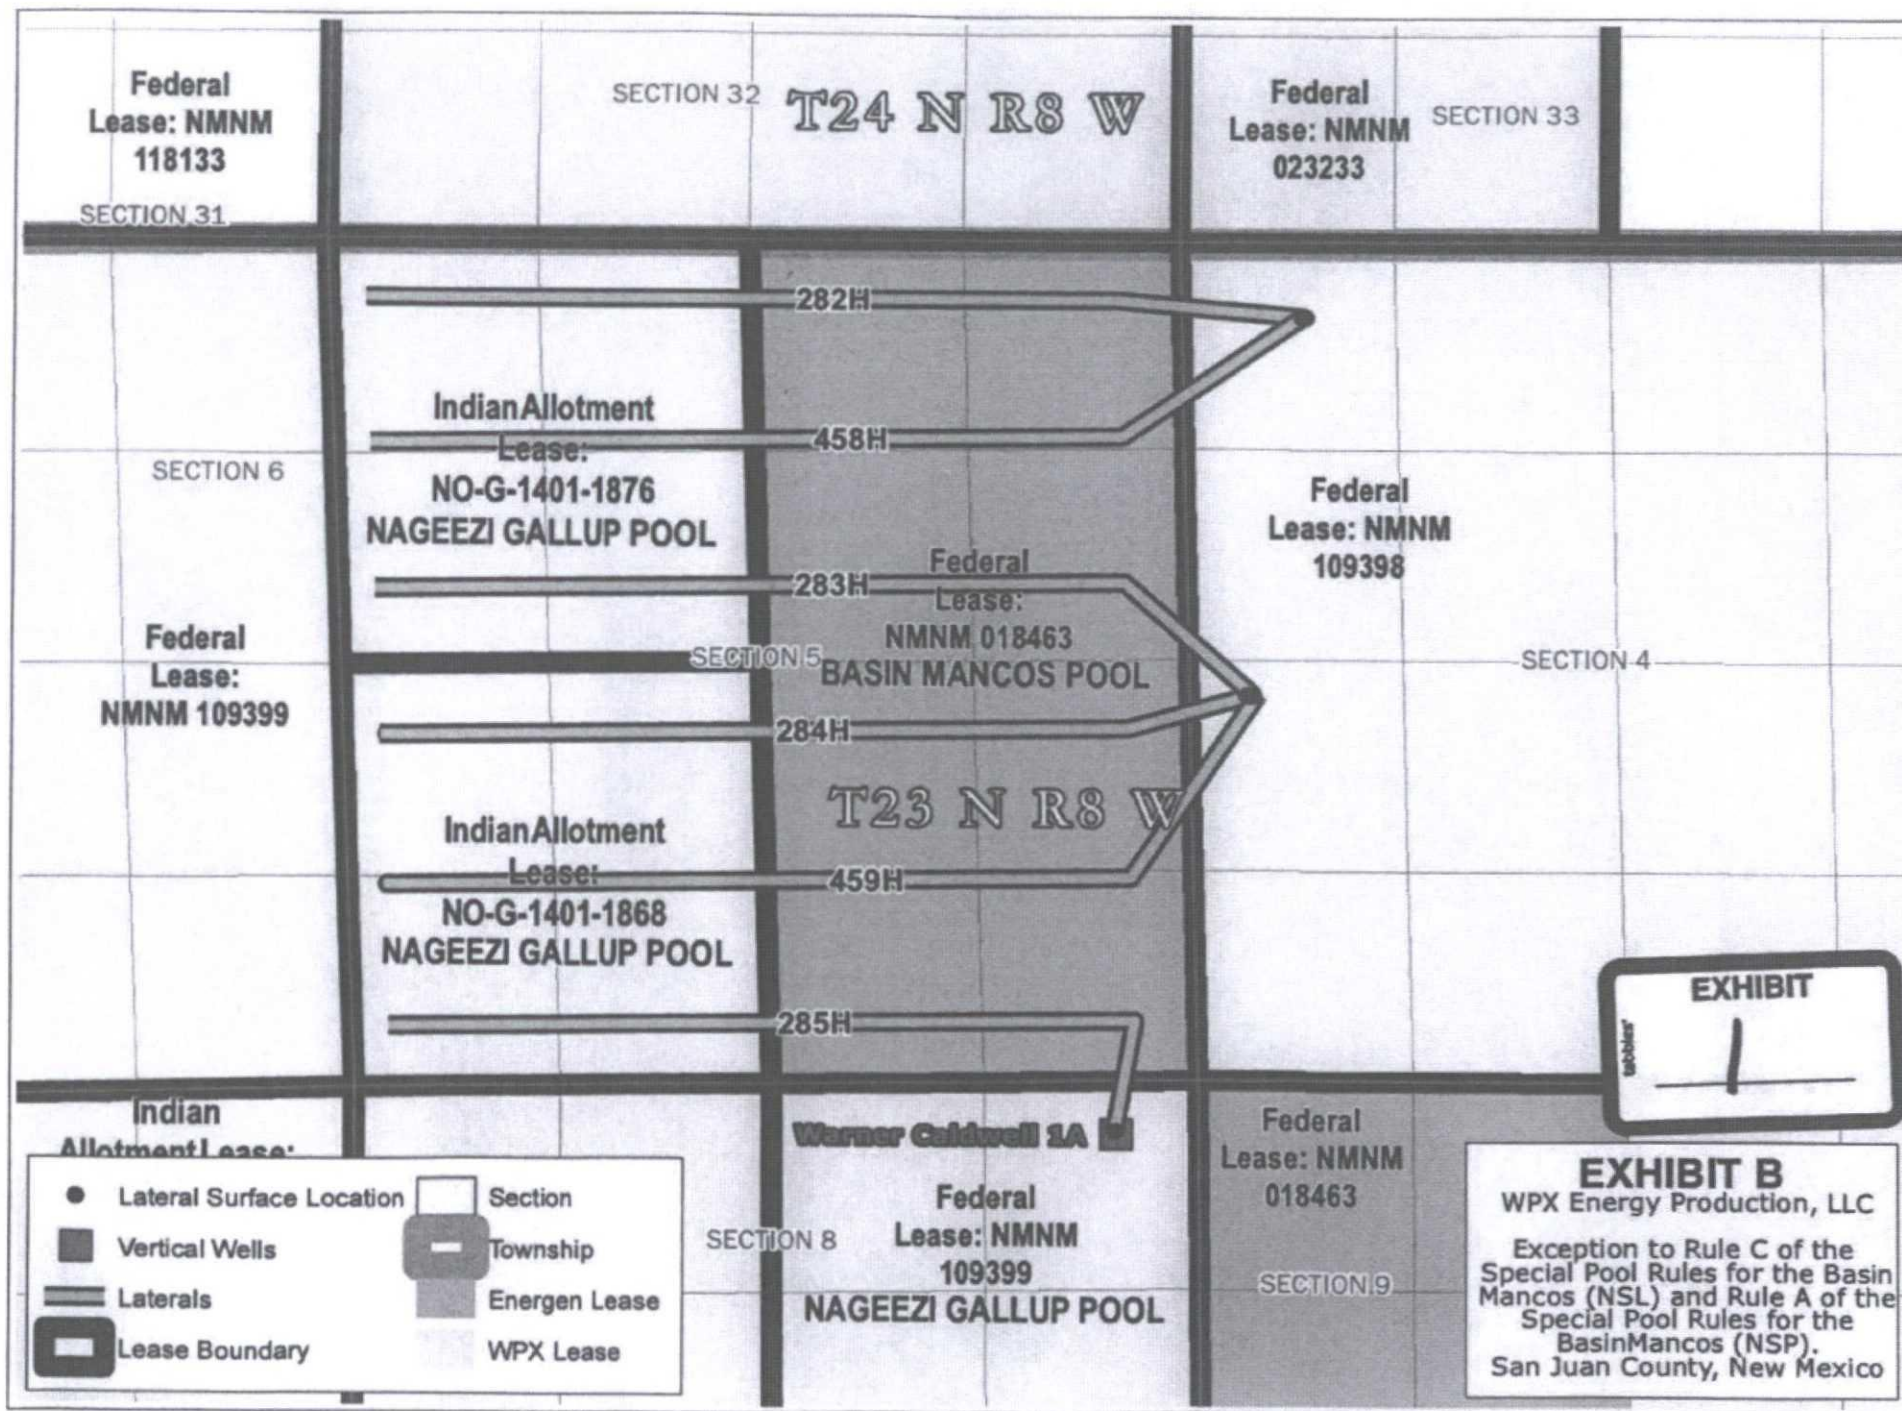

Sincerely,

Jordan L. Kessler

Gentlemen: Recall that in June we met to discuss the amendment to PLC-415 requested in the attached letter. At that meeting we reviewed all of the attachments and I recall departing the meeting with an understanding an amended order would be issued confirming that commingling was approved on a spacing unit ("lease") basis rather than on an individual well basis. To my knowledge, no amendment to the order has been issued.

Can you kindly look into this and let me know the status? I am happy to discuss this matter further by telephone or in person if you deem appropriate.
