RE: Downhole Commingling Application
Pictured Cliffs and Mesaverde Formations
No. 13 San Juan 32-9 Unit
1650' FNL & 1650' FEL
Section 14, T. 31 N., R. 9 W.
San Juan County, New Mexico

Dear Ms. Bradfield:

The Farmington District Office (FDO) of the Bureau of Land Management (BLM) has received your letter September 30, 1996, requesting approval for downhole commingling of the Basin Pictured Cliffs and Blanco Mesaverde formations in the above referenced well. In verification of your calculations, it was noted that the current bottom hole pressure for the Pictured Cliffs formation should be 359 psi, not 444 psi.

After review, we hereby approve your application for downhole commingling. Please submit the allocation factors for this well once you have made your determination.

If you have further questions regarding this matter, please contact Brian W. Davis at (505) 599-6367 or (505) 599-8900.

Sincerely,

/s/ Duane W. Spencer
