AMENDMENT
COMMINGLING ORDER PC-70

Company Texaco Inc.
Address Drawer 728
City, State, Zip Hobbs, New Mexico 88240

Attention: Mr. J. A. Schaffer

Lease Name: C. H. Weir "B"
Description: S/2 N/2 and N/2 S/2 Sec. 12, T-20-S, R-37-E

Could not find this order in our system so creating new Name for the latest order. Will Jones

The above-named company is hereby authorized to commingle production from the following pools

East Weir-Blinebry, Monument-Tubb, Skaggs Drinkard and Skaggs Glorieta

in a common tank battery, and to determine the production from each pool by

 separately metering the production from each pool prior to commingling

 separately metering the production from

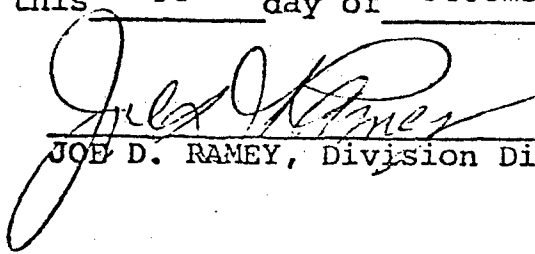

and determining the production by the subtraction method

 X well tests (if this method is to be authorized, all commingled production must be of marginal nature; further, the operator shall notify the Santa Fe Office of the Division in the event any well producing into the commingled battery becomes capable of top allowable production, at which time the Division will amend this order or take such other action as may be appropriate)

Note: This installation shall be installed and operated in accordance with the applicable provisions of Rule 303 of the Division Rules and Regulations and the Division "Manual for the Installation and Operation of Commingling Facilities." It is the responsibility of the producer to notify the transporter of this commingling authority.

REMARKS: Prior to this amendment, commingling on this lease was authorized for the Skaggs Drinkard, Skaggs Glorieta and East Weir-Blinebry Pools only.

DONE at Santa Fe, New Mexico, on this 3rd day of December, 1980.

JOE D. RAMEY, Division Director

Proposed Amendment of Surface
Commingling Order PC-70
CH Weir B Commingled Batter
Section 11, T20S, R37E
Lea County, New Mexico

New Mexico Oil Conservation Division
Attn: Oil & Gas Regulatory Department
2040 South Pacheco
Santa Fe, NM 87505

Dear Oil & Gas Regulatory Department:

Chevron Corporation respectfully requests administrative approval for an amendment to Commingling Order PC-70, allowing for the surface commingling of production from the Eumont, Grayburg, Glorieta, Blinebry, Tubb, and Drinkard pools. The production from each pool will be allocated based on monthly well tests for each of the respective pool producers. Chevron owns 50% WI on this lease. Working interest and royalty ownership are identical in all pools.

Commingling order PC-70 (copy attached) currently provides for the surface commingling of production from the Glorieta, Blinebry, Tubb, and Drinkard pools at the CH Weir B Commingled Battery.

It is requested that the Eumont (currently being collected at the battery) be added to this commingle order. It is also requested that the Grayburg be added to the commingle order as work has been approved by the OCD and is pending to re-enter and complete the CH Weir B #10 as an oil well in the Grayburg.

Attached in support of this request is a table showing oil production volumes, gravities, and monetary values for each of the wells/pools proposed for commingling, a proposed schematic diagram for the subject facility, and a lease plat. As can be seen on the table, while the oil price

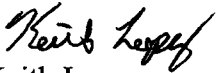

October 12, 2005

Page 2

per barrel is slightly higher with the pools kept separate, the total value for the crude oil produced from the CH Weir B lease is much greater (\$651.61/day vs. \$1,246.10/day) with all wells commingled into a single battery. This is due to the fact that the CH Weir B #10 Grayburg well is not expected to produce enough to justify the construction of battery equipment required to keep it producing, and would have to be shut-in.

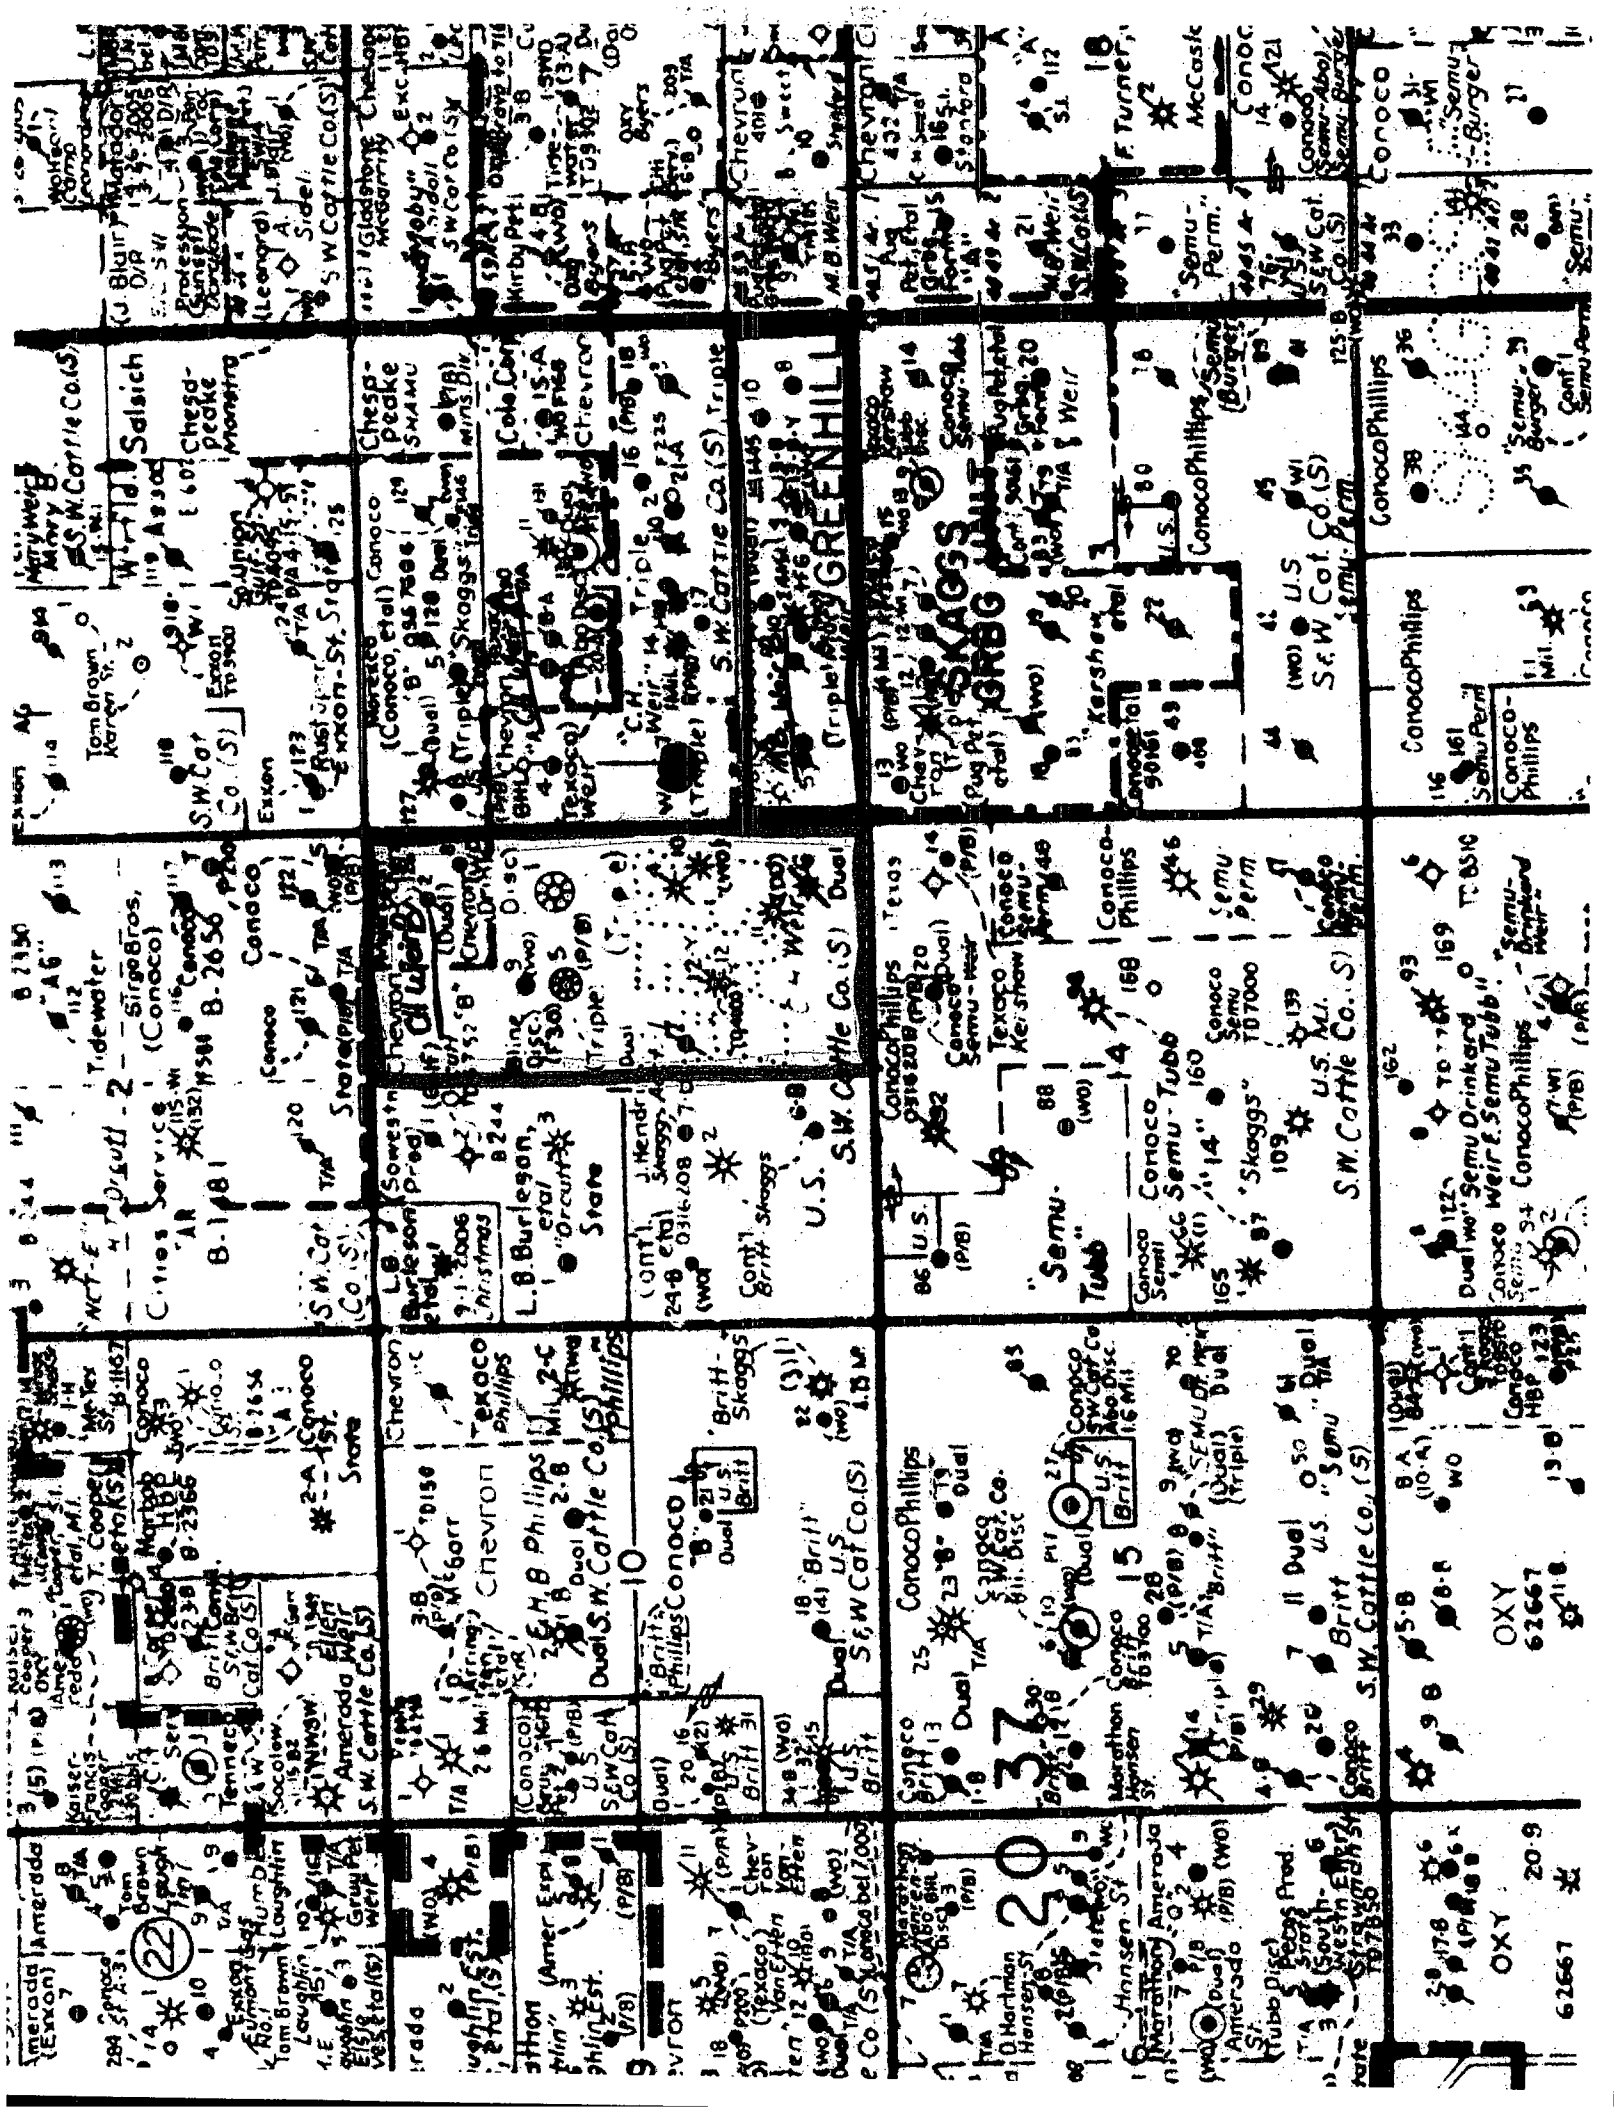

If you have any questions concerning this application, please contact Keith Lopez at (432)-687-7120.

Sincerely,

Keith Lopez
Petroleum Engineer

Midland, TX 79705*

RE: *Proposed Amendment of Surface Commingling Order PC-70
C.H. Weir B Commingled Battery*

Attached, in its entirety, is the package being sent to New Mexico Oil Conservation Division in Santa Fe, NM, to amend the Commingling Order PC-70, allowing for the surface commingling of production from the Eumont, Grayburg, Glorieta, Blinbry, Tubb, & Drinkard pools in the C.H. Weir B Commingled Battery.

You will have twenty (20) days from the day of receipt by the NMOCD, to contest this application.

Any questions concerning this application can be sent to Keith Lopez at (432) 687-7120.

Sincerely,

*J. Denise Pinkerton
Regulatory Specialist
Chevron U.S.A. Inc.*
