**ADMINISTRATIVE ORDER DHC-1736**

Chevron U.S.A. Production Company  
P.O. Box 1150  
Midland, Texas 79702-1150

Attention: Mr. Alan W. Bohling

*Harry Leonard (NCT-E) Well No. 4  
API No. 30-025-06623  
Unit A, Section 16, Township 21 South, Range 37 East, NMPM,  
Lea County, New Mexico.  
Blinebry Oil & Gas (06660) and  
Tubb Oil & Gas (86440) Pools*

Dear Mr. Bohling:

Reference is made to your recent application for an exception to Rule 303.A. of the Division Rules and Regulations to permit the above described well to commingle production from the subject pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303.C., and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion and required separation of the zones is hereby placed in abeyance.

The maximum amount of gas which may be produced daily from the well shall be determined by Division Rules and Regulations or by the gas allowable for each respective prorated pool as printed in the Division's Southeast Gas Proration Schedule.

Assignment of allowable to the well and allocation of production from the well shall be on the following basis:

Blinebry Oil & Gas Pool	Oil 100%	Gas 25%
Tubb Oil & Gas Pool	Oil 0%	Gas 75%

The allocation method established herein may be altered at some time subsequent to initiating downhole commingling operations upon request by the operator and for good cause shown.

REMARKS: The operator shall notify the Hobbs District Office of the Division upon implementation of the commingling process.

Pursuant to Rule 303.H., the commingling authority granted herein may be rescinded by the Division Director if, in his opinion, conservation is not being best served by such commingling.

Approved at Santa Fe, New Mexico on this 25th day of November, 1997.
