Dear Mr. Catanach:

Enclosed is an Amended Form C-107-A to reflect the change in the field names from the Pitchfork Ranch Wolfcamp & Pitchfork Ranch Strawn Fields to the Undesignated Fairview Mills Wolfcamp Gas and Wildcat Strawn Fields. This change was requested by Mr. Mike Stogner as we also filed for an unorthodox bottom hole location to sidetrack a direction hole from the existing vertical well.

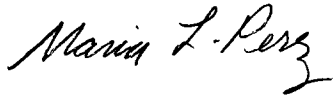

None of the information or attachments have changed on this application other than correcting the field names. All of the offsets were given the proper notification of the original package and a copy of the certified return receipts were mailed to you as proof of notification. All offsets will be mailed a copy of the corrected C-107-A which reflects the change in the field names so they can replace this form in their package.

Pitchfork "4" Federal #2**

A rig will be available within a week to do the sidetrack directional hole from this vertical well. Would it be possible to obtain approval for the downhole commingling of this well by this week? Please advise if you require additional information on this application.

The original and copies are in the mail to you today.

Sincerely,

A handwritten signature in cursive script, reading "Maria L. Perez". The signature is written in dark ink and is positioned above the typed name.
