**ADMINISTRATIVE ORDER DHC-1830**

Taurus Exploration U.S.A., Inc.  
2198 Bloomfield Hwy.  
Farmington, New Mexico 87401

Attention: Mr. Gary W. Brink

*Fee No. 12A  
API No. 30-045-25334  
Unit A, Section 12, Township 30 North, Range 12 West, NMPM,  
San Juan County, New Mexico.  
Aztec-Pictured Cliffs (Gas - 71280) and  
Blanco-Mesaverde (Prorated Gas - 72319) Pools*

Dear Mr. Brink:

Reference is made to your recent application for an exception to Rule 303.A. of the Division Rules and Regulations to permit the above described well to commingle production from the subject pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303.C., and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion and required separation of the zones is hereby placed in abeyance.

The maximum amount of gas which may be produced daily from the well shall be determined by Division Rules and Regulations or by the gas allowable for each respective prorated pool as printed in the Division's San Juan Basin Gas Proration Schedule.

Production from the subject well shall be allocated as follows:

Blanco-Mesaverde Gas Pool	Oil 100%	Gas 60%
Aztec-Pictured Cliffs Gas Pool	Oil 0%	Gas 40%

The allocation method established herein may be altered at some time subsequent to initiating downhole commingling operations upon request by the operator and for good cause shown.

REMARKS: The operator shall notify the Aztec District Office of the Division upon implementation of the commingling process.

Pursuant to Rule 303.H., the commingling authority granted herein may be rescinded by the Division Director if conservation is not being best served by such commingling.

Approved at Santa Fe, New Mexico on this 27th day of February, 1998.
