Mike/Carmen,

I am trying to get all production in for Dec 2005 ASAP, industry is wanting totals for 2005 already. If you could get the paperwork into Ongard right away it would be great. Please see details below. Thanks!!

Andrea:

Marbob's 12/05 C115's have not been submitted for the following reasons:

Little Federal #1 30-015-33960 - Has 2 completions (downhole commingled), but only 1 got set up. Talked to Carmen @ Artesia OCD and she is supposed to fix it for me. I called today to check with her, but she is not in the office today.

LPC 31 Federal #1 30-025-37440 - Talked to Donna @ Hobbs OCD. She is waiting to hear from Mike Stogner on approval of a non-standard location application. I called her again today, and she said she would try e-mailing him.

My C115's are correct & ready to submit, but I can't submit them without errors until these problems are fixed.

Thanks!

The application for Marbob's LPC "31" Federal Well No. 1 (30-025-37440) filed on Jan. 19<sup>th</sup> was incomplete and I am currently waiting for the required information to complete our review before issuing an NSL order. However, I do not anticipate a problem with the application. So that 2005 production totals can be processed, lets assign to the Marbob well an administrative order number of NSL-5337. I trust this will remedy the hold up for the LPC "31" Federal # 1 well. Let me know if anything else is needed.
