Brad,

Please be informed that this well is to be shut-in today (February 9, 2006) until an approved NSL is granted from Santa Fe. Please review NMOCD Rule 19.15.3.104(C)(2) for more information.

Also, please be aware that whenever a well is directionally drilled that we are provided the correct bottom hole location.

Yours Truly,

Bryan Arrant

Bryan,

This email is being sent to verify that Bass owns all the leases directly offsetting the proposed Big Eddy Unit #153. Please call and let me know if there is any other information you need in regards to this well.

Thanks,

Please note that under Rule 40, the OCD may approve your APD's to drill. However, under Rule 40 if you are out of compliance when the well is completed, we cannot approve an allowable for this well. You may regain compliance by properly TA, P&A, return the out of compliance wells back to production, or enter into an Agreed Compliance Order ("ACO") with the OCD to return these wells to compliance within a certain time frame. If you choose an ACO, please contact Gail MacQuesten with our Santa Fe Office at (505) 476-3451.

By the rules and regulations of NMOCD Rule 40, this well is to be shut-in March 7, 2006.

Respectfully Yours,
