ARTESIA DISTRICT

OCT 07 2015

If a Watercourse was Impacted, Describe Fully.* N/A

RECEIVED

Describe Cause of Problem and Remedial Action Taken.*

A poly line carrying natural gas parted and caught fire on the ROW which has 2 other gas lines and 5 poly water lines on it which in turn melted the water lines causing the produced water release

Describe Area Affected and Cleanup Action Taken.*

Produced water spill remained on pipeline ROW, affecting a 25'x25' area. Gas to poly line was shut in allowing fire to extinguish. Vac truck dispatched to recover all standing produced water.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
