Mike and Terry,

As discussed with BLM, Tetra Tech completed the remediation on the Electra North Tank Battery late Friday afternoon 7-29-11 (ahead of schedule) and Sweatt transported the equipment to the Biscuit Hill SWD site. Tetra Tech has started the soil remediation at the Biscuit Hill SWD Facility today Monday (8-1-11). The remediation will be performed according to the submitted and approved work plan. Tetra Tech will also notify you during each phase of the remediation project. Let me know if you need additional information, thanks
