Re: San Juan 28-4 Unit #34M
1070' FNL, 600' FWL, Section 30, T-28-N, R-4-W, Rio Arriba County
30-039-27610

Dear Mr. Stogner:

Burlington Resources proposes to drill the above referenced well location in the Blanco Mesaverde and Basin Dakota formations and is applying for administrative approval of an unorthodox gas well location for the Unit Boundary.

The subject well was staked 1070 feet FNL and 600 feet FWL due to steep, rugged terrain within the legal spacing window of both formations, as shown on the attached aerial photography and topography maps. The US Forest Service has also requested this particular location for this proposed well.

The following attachments are for your review:

- Approved application for Permit to Drill and C-102 at referenced location & name change sundry
- Offset operators
- 9 Section Plat
- Topographic Map
- Aerial Photography Map

Copies of this application are being submitted to offset operator / working interest owners by certified mail. Please let me know if you have any questions about this application.

Sincerely,

Joni Clark
Regulatory Specialist

Burlington is changing the name of the well on your records as the SJ 28-4 Unit #34N to San Juan 28-4 Unit #34M (new name). Please make this change in your records. This well wasn't name correctly from the beginning, but since this well was on the forest. we didn't want to change the name until the APD was approved so the NEPA process wouldn't need to start all over.

14. I hereby certify that the foregoing is true and correct.
