RE: Application for Administrative Approval of Unorthodox Location
XTO Energy Inc.'s Kutz Federal#16 Well
845' FWL and 2,175' FSL (NW/4 SW/4)
Unit L, Section 33, T28N-R10W
San Juan County, New Mexico
Mancos Formation

30-045-33038

Dear Mr. Stogner:

XTO Energy Inc. hereby requests administrative approval for an unorthodox location for the above referenced well. Attached for your reference are the following exhibits:

1. Well location plat (NMOCD Form C-102)
2. Topographic map
3. Ownership map
4. Production map of Mancos Formation

The above captioned well was drilled and completed as a Basin Dakota well spaced as a W/2 320 acre unit. XTO requests permission to re-complete this well with the uphole non-standard Mancos formation and commingle with the existing Dakota production. The primary formation when drilling this well was the Basin Dakota formation. The well was placed at this location due to topographic problems and to obtain the greatest distance from the plugged Dakota well, named the Kutz Federal #13 in this quarter section. As can be seen from the topographic map, the rugged surface conditions prevented moving the location off the lease road to obtain a standard location for the Mancos formation. The Mancos formation is spaced as a 160 acre unit. XTO has notified the offset owners to which we are moving closer to.

XTO Energy Inc. requests your Administration Approval for the unorthodox location based on the above information. Should you need any additional information please feel free to contact me at (817) 885-2454.
