If a Watercourse was Impacted, Describe Fully.
N/A

Describe Cause of Problem and Remedial Action Taken.*

Two oil tanks had holes due to corrosion on bottom causing a 65 bbls oil release. Vac truck was called to transfer 60 bbls oil to third oil tank to prevent further release. Tanks will be repaired when possible.

Describe Area Affected and Cleanup Action Taken.*

65 bbls oil was released on the East side of the facility. 60 bbls oil were recovered via vacuum truck. All fluid remained on the pad inside unlined containment. Environmental Agency will be called for remediation.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

The BLM approval/acceptance does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Good morning, Corina,

Please note I will be the authorizing agent on this spill. Yesterday when it was called into me, I was told that it was a 75 bbls spill and that 70 bbls were recovered. The C-141 states 65/60. Would you please verify the amount and why the discrepancy?

Thank you.
