Latitude N32 21.511

Longitude W103 15.408

NATURE OF RELEASE

Type of Release	Crude Oil, Produced water and Natural Gas	Volume of Release	50 Bbbls Fluid and 360 MCF Nat. Gas	Volume Recovered	0 Bbbls crude Oil and produced water
Source of Release	30" Natural Gas Pipeline	Date and Hour of Occurrence	not known	Date and Hour of Discovery	7/21/07 7:00 p.m.
Was Immediate Notice Given?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?	NMOCD on call representative		
By Whom?	Tony Savoie	Date and Hour:	7/21/07 7:15 p.m.		
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken:

A 30" Natural Gas gathering line developed a leak due to excess fluid delivered by a producer cause the line to pressure up and leak fluid and natural gas. Crews began shutting the line in at 7:45 pm. All of the fluid lost had soaked into the ground before the vacuum trucks arrived on site.

Describe Area Affected and Cleanup Action Taken. Approximately 5,100 square feet of pasture land and approximately 3,672 square feet of caliche lease road was impacted by the release. No cleanup actions were taken at the time of the release. The final remediation will follow the NMOCD Guidelines for the remediation of leaks and spills.

On or around August 15, 2007, remediation activities were conducted at the Trunk "O" #3 Release Site by an environmental contractor that is no longer affiliated with the site. On August 10, 2012, the site was revisited; the excavation floor and sidewalls were advanced until laboratory analytical results from confirmation soil samples indicated concentrations of chloride, BTEX and TPH were less than NMOCD regulatory remediation action levels.

Please see the attached Basin Environmental Services Technologies Remediation Summary and Site Closure Request for details of remedial activities and laboratory analytical results from confirmation soil sampling.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases, which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
