Trinity Environmental SWD, LLC  
13443 Highway 71 West  
Bee Cave, TX 78738

**RE: Administrative Order SWD-1333; Fifth Extension of Deadline**

Oxy Doc Slawin Federal Well No. 1 (API 30-015-33180)

460' FSL, 640' FWL; Unit M, Sec 29, T17S, R31E, NMPM, Eddy County, New Mexico  
Order Date: May 16, 2012

Injection into the Bone Spring and Wolfcamp formations; approved interval: 7762 feet to 9362 feet

Mr. Heffner:

Reference is made to your request on behalf of Trinity Environmental SWD, LLC for an additional 60-day extension of the February 16, 2016 deadline to commence injection into the above named well for reasons outlined in the attached correspondence. These reasons include the impacts from unusually severe weather conditions that occurred in the southeast part of New Mexico at the end of 2015.

It is the Division's understanding from your request that there have been no significant changes in the information provided in the application submitted for review and approval of this order. These changes include the completion of new wells within the Area of Review that penetrated the approved injection interval and any changes in ownership.

The Division finds that granting this request to extend this administrative order is in the interest of conservation, will prevent waste, and will protect the environment.

All requirements of the above referenced administrative order and agreements in the application remain in full force and effect.

The deadline to commence injection is hereby extended until April 16, 2016.

Sincerely,

**DAVID R. CATANACH**  
**Director**
