NATURE OF RELEASE

Type of Release: Oil/ Produced Water	Volume of Release: 2.5 barrels oil, 5.19 barrels produced water	Volume Recovered: 0.5 barrels oil, 1.5 barrels produced water
Source of Release: Flowline	Date and Hour of Occurrence: 5-4-16 @ 2:00pm	Date and Hour of Discovery: 5-4-16 @ 2:30pm
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?	
By Whom?	Date and Hour	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

EH&S was notified of a release at the PLU 332H flowline. The lease operator reported release due to flowline failure caused by external corrosion. The above-ground flowline had been buried and covered with caliche without being wrapped or coated. Majority of release was concentrated to well pad but some fluid entered pasture. A vacuum truck was called to the location to recover standing fluid.

Describe Area Affected and Cleanup Action Taken.*

Majority of release was concentrated to well pad but some fluid entered pasture. A response crew was sent to the location and conducted an initial scrape of the heavy saturated soils and conducted sampling.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: PLU 332H Initial C-141 and Sampling info
Attachments: Initial C-141 PLU 332H 5-4-16.pdf; field log.pdf

All,

Please find the attached initial C-141 and sampling log for the PLU 332H. We have conducted an initial scrape of the spill area (Surface) and will be submitting samples to the lab for analysis, based on the field screening I would like to request permission to backfill the site upon receiving the lab data. If you have any questions please let me know. Thanks
