Re: Submittal for the Renewal of the Annual Temporary Discharge Permit for Kinder Morgan OCD
OGRID # 241756 Permit #HPB - 028

Dear Mr. Jones:

Kinder Morgan (KM) is submitting the following renewal request for the Annual Temporary Permit to discharge waters from hydrostatic tests from new pipe. This application was completed using the OCD's Guidelines for Hydrostatic Test Dewatering, revised January 11, 2007. A check in the amount of \$250.00 that covers the filing and permission fees is included for this submittal application.

In order to maintain coverage under the Annual Temporary Permit, KM will comply with the following conditions:

- 1) The volume will not exceed 25,000 gallons per hydrostatic test
- 2) Water from a public/municipal water supply or other OCD-approved sources will be used for each test
- 3) Written notification shall be provided to the OCD 72-hours prior to each hydrostatic discharge event
- 4) The discharge will not enter any lake, perennial stream, river or their respective tributaries that may be seasonal
- 5) No discharge shall occur
 - a) Where ground water is less than 10 feet below ground surface;
 - b) Within 200 feet of a watercourse, lakebed, sinkhole or playa lake;
 - c) Within an existing wellhead protection area;
 - d) Within 500 feet of a wetland; or
 - e) Within 500 feet from the nearest permanent residence, school, hospital, institution or church
- 6) Best management practices shall be implemented to contain the discharge onsite, does not impact adjacent property, and to control erosion
- 7) The discharge will not cause any fresh water supplies to be degraded or to exceed standards as set forth in Subsections A, B and C of the 20.6.2.3103 NMAC (the New Mexico Water Quality Control Commission Regulations)

- 8) The landowner(s) of each proposed discharge and/or collection/retention or alternative discharge location shall be properly notified of the activities prior to each proposed hydrostatic event; and
- 9) An annual report, summarizing all tests of new pipe with less than 25,000 gallons per hydrostatic test event, will be submitted to the OCD within 45 days after the temporary permission expiration date and shall contain the following information:
 - a) The location of hydrostatic test (Section/Township/Range or GPS coordinates)
 - b) The date of each test;
 - c) The volume of each discharge; and
 - d) The source and quality of test water (laboratory analysis, if necessary).

If you have any questions, please contact me at 325-721-9435.

Sincerely,

Linda Fields
