NATURE OF RELEASE

| | | |
|------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------|-------------------------------------------------------|
| Type of Release: Crude Oil | Volume of Release: NA | Volume Recovered: NA |
| Source of Release: NA | Date and Hour of Occurrence: NA | Date and Hour of Discovery 09/09/2015 Time Unknown |
| Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required | If YES, To Whom? | |
| By Whom? NA | Date and Hour: NA | |
| Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No | If YES, Volume Impacting the Watercourse. | |

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.* Historical soil impacts discovered beneath facility piping and valve settings during remediation of IRP-3841. The source and cause of the release remain unknown.

Describe Area Affected and Cleanup Action Taken: During remediation activities associated with a crude oil release which occurred on 08/28/2015 (IRP-3841), historical soil impacts were discovered beneath facility piping within the facility boundaries. Impacted soil was excavated to the maximum extent practicable given the presences of numerous above and below ground pipelines and associated valve setting. Excavated soil was hauled to an NMOCD-permitted disposal facility. As per the NMOCD, historical soil impacts were delineated horizontally and vertically and will be investigated and/or remediated upon decommissioning the facility at time of abandonment (TOA).

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
