Describe Cause of Problem and Remedial Action Taken.* <i>A water line from the production test separator to the water tank developed two leaks due to corrosion. The line was isolated to stop the release. Working on repairs to the line.</i>		
Describe Area Affected and Cleanup Action Taken.* <i>Approximately 5bbls produced water was released on location from two separate leaks on a single water line that travels from the production test separator to the water tank on the Northwest side of pad. Each release flowed in a Northern direction into the pasture. Approximate total size of the first affected area was 15'x30' including 5'x5' in the pasture and the second area affected was approximately a total size of 15'x20' including 1'x15' in the pasture. A vacuum truck was contacted and recovered 1bbl produced water. An environmental agency will be contacted for remediation.</i>		
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
