Re: Application of Matador Production Company for administrative approval of an unorthodox well location for its B Banker 33-23S-28E RB #206H Well in the N/2 of Section 33, Township 23 South, Range 28 East, N.M.P.M., Eddy County, New Mexico.

Dear Mr. Catanach:

Matador Production Company (OGRID No. 228937) seeks administrative approval of an unorthodox well location for its **B Banker 33-23S-28E RB #206H Well** (API No. pending) which is located within the Culebra Bluff, Wolfcamp, South (Gas) Pool (Pool Code 75750) underlying the N/2 of Section 33, Township 23 South, Range 28 East, N.M.P.M., Eddy County, New Mexico. The **B Banker 33-23S-28E RB #206H Well** is a horizontal well that will be drilled and completed as follows:

- Surface Hole Location: 1911 feet from the North line and 145 feet from the East line (Unit H) of Section 33, Township 23 South, Range 28 East;
- First Perforation Point: 2310 feet from the North line and 330 feet from the East line (Unit H) of Section 33, Township 23 South, Range 28 East;
- Last Perforation Point: 2310 feet from the North line and 330 feet from the West line (Unit E) of Section 33, Township 23 South, Range 28 East; and
- Bottom Hole Location: 2310 feet from the North line and 240 feet from the West line (Unit E) of Section 33, Township 23 South, Range 28 East.

Since this acreage is governed by the Division Rule 19 .15 .15 .10 .B which provides for wells in defined gas pools in Eddy County to be spaced on 320 acres and located no closer than 660 feet to the outer boundary of the spacing unit, the completed interval for this well will be unorthodox. Approval of the unorthodox completed interval will allow for efficient well spacing and prevent waste of a productive reservoir.

HOLLAND & HART^{LLP}

Exhibit A is a draft Well Location and Acreage Dedication Plat (Form C-102), which shows that the completed interval of the proposed **B Banker 33-23S-28E RB #206H Well** encroaches on the spacing and proration units to the East, Southeast, South, Southwest, and West.

Exhibit B is a Midland map showing an outline of the subject acreage and the surrounding sections.

Exhibit C contains a list of the parties affected by the encroachment and their area of ownership. A copy of this application with all attachments has been sent by certified mail to each affected party advising them that if they have an objection it must be filed in writing with the division within 20 days from the date the division receives this application. A courtesy copy of this application has also been provided to the New Mexico State Land Office.

Exhibit D is a notice of publication directed to unlocatable unknown heirs of affected interest owners.

Your attention to this matter is appreciated.

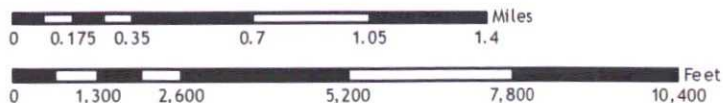

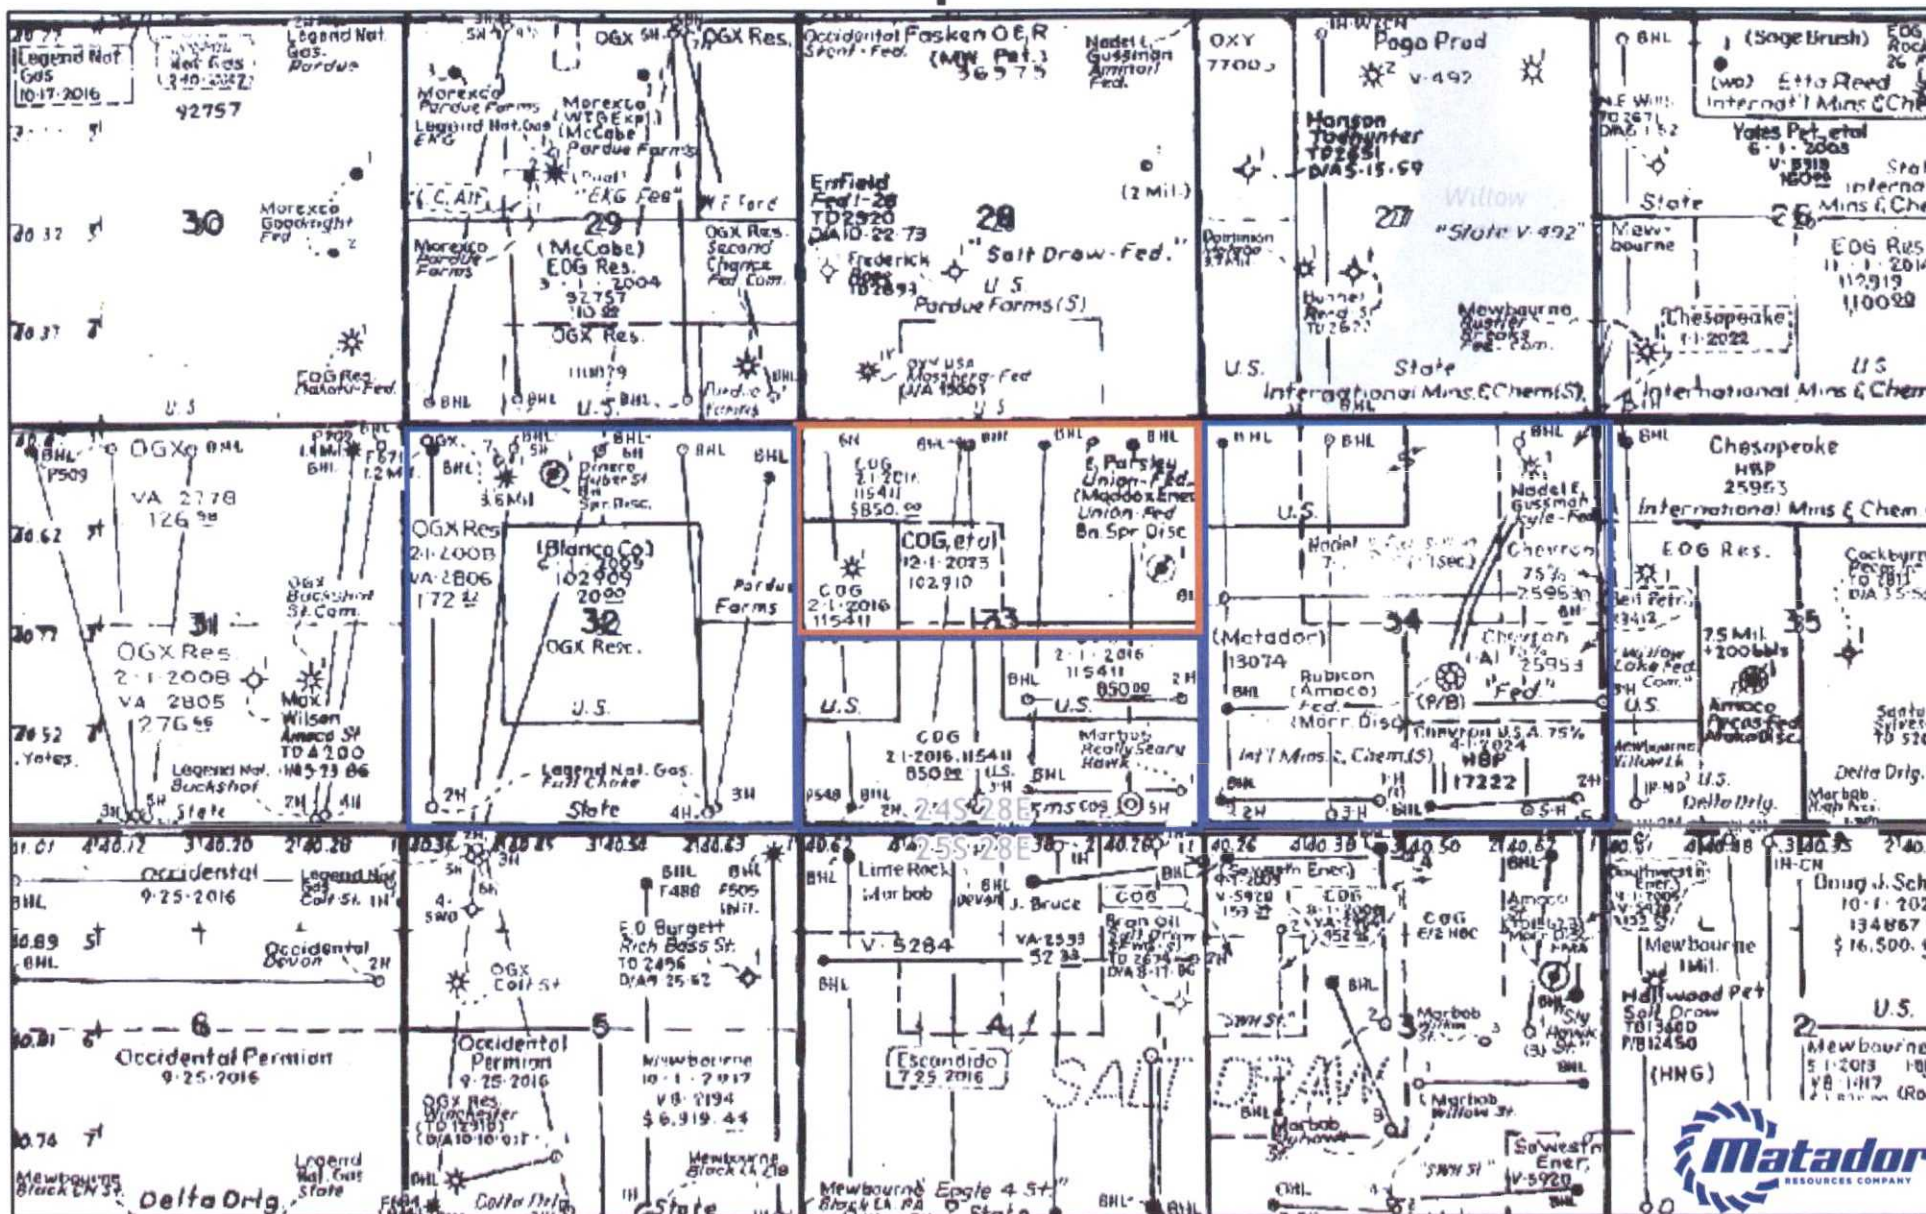

Sincerely,

Jordan L. Kessler

Subject: RE: NSL application for B Banker 33-23S-28E RB No. 206H

Leonard,

The reason that the footages do not add up to 2640 is because Section 33 is slightly larger due to being a correction section on the northern boundary of the Township.

According to the surveyor, "This section is larger than 2640', therefore the footage, holding 2310 FNL will cause those numbers to be larger from the South line. See attached Fed plat for the Bearings and Distances around the perimeter of the section." I've attached the surveyor's plat for reference. Please let me know if there are any additional issues, if not, please let us know the status of this application.

Thanks!
Jordan

Jordan Kessler,

If the footages do not match up, please provide the reason, in writing. There was nothing in your application stating that.

Leonard,

Could you please let me know the status of this application? We had a phone conference last week discussing the fact that because this is an irregular section, the footages do not match up to 2640—but I haven't heard back from you.

Thanks!
Jordan
