<b>Was a Watercourse Reached?</b> <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<b>If YES, Volume Impacting the Watercourse</b> N/A	

**If a Watercourse was Impacted, Describe Fully.\***  
N/A

**Describe Cause of Problem and Remedial Action Taken.\***

Small leak developed at the fill line of the number 2 produced water tank. The tank was isolated and a vacuum truck was contacted to empty the tank. Repairs have been made and the produced water tank is back in service.

**Describe Area Affected and Cleanup Action Taken.\***

Approximately 5bbls produced water was released from a produced water tank into surrounding lined containment. A vacuum truck was called and recovered 5bbls produced water from lined containment. The containment was checked for holes and none were found. No further action is required.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
