Re: Application of COG Operating LLC for approval to amend
Administrative Order NSL-7456 for its Raspberry State Com Well No. 1H

Dear Mr. Catanach,

COG Operating LLC (OGRID 229137) seeks to amend Administrative Order NSL-7456 to correct the surface hole location and bottom hole location as provided by the survey company on the as drilled C-102 plat. Please note further that neither the Penetration Point nor the Final Perforation changed, that what COG seeks is a clerical change only.

Administrative Order NSL-7456 identified the Surface as 334' FSL and 200' FEL, whereas the attached as drilled C-102 plat identifies the surface as 330' FSL and 200' FEL. The bottom hole location per NSL-7456 is 51' FNL and 330' FEL, whereas the as drilled C-102 plat identifies the bottom hole as 51' FNL and 344' FEL.

Since neither the Penetration Point nor the Final Perforation changed and because the bottom hole location is now further from the east line, no notice is required to offsetting parties.

Thank you for your attention to this matter.

Sincerely,

A handwritten signature in black ink that reads "Melanie J. Wilson".
