Dear Mr. Lowe:

Pursuant to Division Rule 19.15.15.13, COG Operating LLC (COG) respectfully requests administrative approval of an unorthodox oil well location for its Spruce Goose Federal Com #2H well. The producing interval of this well does not meet the 330' from the outer boundary of the producing area requirement. Attached is a Form C-102 showing the project area and the producing area of this well.

COG is seeking approval of the unorthodox location in order to maximize recovery of reserves. The New Mexico Oil Conservation Division's approval of the unorthodox completed interval for the Spruce Goose Federal Com #2H well will allow for efficient recovery of reserves thereby preventing waste and improving well performance.

The affected offset tracts are the SE/4SE/4 of Sec. 1-T19S-R31E (Tract 1), NE/4NE/4 of Sec. 12-T19S-R31E (Tract 2), NW/4NW/4 of Sec. 8-T19S-R32E (Tract 3), and the SW/4SW/4 of Sec. 5-T19S-R32E (Tract 4). Devon Energy Production Co., LP, is the designated operator of Tract 1. All other tracts are operated by COG Operating, LLC. A notice letter of this application has been sent by certified mail this date to Devon Energy Production, Co., LP, as well as all working, royalty or overriding royalty interest owners under offset Tracts 2, 3 and 4. The notice letter advises that should they have an objection to COG's application, they must file a written objection with the Division within twenty (20) days from the date the Division received this application.

Thank you for your consideration of this application. Should you have questions or require further information, please contact me at 575-748-6958 or by email at dwilbourn@concho.com.
