Greetings,

NMOCD is in receipt of a closure request prepared by Talon LPE, dated April 5, 2011 and received at OCD District 2 office May 18, 2011. The request is for closure of a LOV (02-09-083) issued by OCD for observed produced fluids releases/leaks that had occurred at the above referenced well site. The closure request cannot be approved as submitted. With a site ranking of 10 points, the RRAL for TPH is 1000 mg/kg. Analytical data submitted shows TPH levels at 1655.8 mg/kg. Please submit a proposal for further remediation at this site.

If you have any questions or concerns, contact me.

*Mike Bratcher*
