13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Oxy USA Inc requests approval for the pool commingling and off-lease gas sales for the River Bend 10 Federal 1 and River Bend 10 Federal 2.

The central tank battery is located on the well pad for the River Bend 10 Federal 2 location at 32.2328, -103.9749, which is on lease NMNM 081616. The production from each well will flow through a common two phase production separator to separate gas and liquids. The liquids will then flow through a heater treater to separate oil and water. Gas is routed to Oxy check meter S/N 5078. Wells will be tested monthly by shutting in one of the wells for a minimum of 24 hours.

The oil production from the wells listed will be commingled, measured and sold on lease. Oil will be sold via trucking. Gas will be sold to Enterprise at sales meter S/N 68841 located at 32.2219, -103.9743. Produced water will be pumped to the Cedar Canyon water disposal gathering system.

All meters will be calibrated on a regular basis per API, NMOCD and BLM specifications. The BLM and OCD will be notified of any future changes in the facility.

Subject to like Approval BLM
