Re: Application for a Non-Standard Location
Blue Krait 23-14 Fed 5H
W/2 W/2 Sections 23 and 14-T24S-R33E
Lea County, New Mexico

Dear Mr. Lowe:

Devon Energy Production Company, L.P. ("Devon") respectfully requests administrative approval of an unorthodox well location for the **Blue Krait 23-14 Fed 5H** well to be completed in the Red Hills; Bone Spring, North Pool (Pool Code 96434). As shown on the enclosed C-102, the permitted surface location is 200' FSL & 710' FWL Section 23-T24S-R33E with a permitted bottom hole location 330' FNL & 1,284' FWL of Section 14-T24S-R33E. The projected FTP (first take point) is expected to be approximately 330' FSL & 1,284' FWL Section 23-T24S-R33E and the projected LTP (last take point) is expected to be approximately 330' FNL & 1,284' FWL Section 14-T24S-R33E. The reason for permitting this well at an unorthodox location is to maximize recovery.

Please be advised Devon owns 100% of the leasehold interest in all of Section 23-T24S-R33E and 100% of the leasehold interest in the W/2 and W/2 E/2 Section 14-T24S-R33E. COG Operating LLC is the operator of wells located in Section 11-T24S-R33E and EOG Resources, Inc. is the operator of wells located in Section 26-T24S-R33E. Both parties are being notified of this application with notifications being sent via certified mail to the addresses shown on the enclosed list labeled "Notified Parties".

Enclosed for your review are the following:

- Form C-102 for the Blue Krait 23-14 Fed 5H;
- Land plat showing the project area for the Blue Krait 23-14 Fed 5H lateral and adjoining units;
- List of the affected parties, being COG Operating LLC and EOG Resources, Inc.;
- Administrative Application Checklist

Gentlemen:

Devon Energy Production Company, L.P. ("Devon") respectfully requests administrative approval of an unorthodox well location for the **Blue Krait 23-14 Fed 5H** well to be completed in the Red Hills; Bone Spring, North Pool (Pool Code 96434).

Devon desires to develop Sections 14 and 23-T24S-R33E in a manner which will protect correlative rights and prevent waste. Devon's objective is to prudently produce reserves in such a manner that may not otherwise be recovered. The non-standard location allows Devon to optimize well spacing for horizontal development thereby minimizing the risk of leaving reserves behind.

If anything further is needed contact me at (405) 552-4780 or Jaron.Lang@dvn.com.

Sincerely,

DEVON ENERGY PRODUCTION COMPANY, L.P.

Justin:

The OCD is requiring more substantial reasons for NSL application when the project area is less than 100 feet from the Unit boundary. Therefore, if it is for engineering reasons, a signed statement from the engineer describing the reason for the NSL application. Likewise, if it is for geologic reasons, a geologist will be required to sign a statement.

The engineering Bureau will not recommend signature by the Director until it is received..
