Eddy County, New Mexico

Dear Mr. Lowe:

Pursuant to Division Rule 19.15.15.11, COG Production LLC (COG) respectfully requests administrative approval of a Non-standard Proration Unit for the Copperhead 31 Fee Com #21H well. The proposed acreage dedication is less than the Purple Sage Wolfcamp (gas) pool rules require. Attached is Form C-102 showing the project and producing areas of this well.

COG is seeking approval of the non-standard unit due to the change of pool rules in this area. The new Purple Sage Wolfcamp (gas) pool rules would require acreage dedication of the entire E/2 of Section 30, and the N/2NE/4, Lot 6, Lot 7 of Section 31 under the referenced well. COG's existing Copperhead 31 Federal #3H well has an acreage dedication of the E/2E/2 of Section 30 and the NE/4NE/4, Lot 7 of Section 31. The New Mexico Oil Conservation Division's approval of the non-standard unit will prevent overlapping dedicated acreage under two diverse ownership wells.

The affected offset tracts are the SE/4SW/4 and S/2SE/4 of Section 19 (Tract 1), unleased federal acreage; the E/2E/2 of Section 30 and the NE/4NE/4, Lot 7 (Tract 2) operated by COG; and the E/2W/2 of Section 30 and NE/4NW/4, Lot 3 of Section 31 (Tract 3), also operated by COG. The three affected interest owners in the offsetting tracts have been notified by certified letter of COG's proposed non-standard unit. The notice letters advise the interest owners that in the event they have an objection to COG's application, they must file a written letter of objection with the Division within twenty (20) days from the date the Division receives the application.

Thank you for your consideration of this application. Should you have questions or require further information, please contact me at 575-748-6958 or by email at dwilbourn@concho.com.

Sincerely,

Debora L. Wilbourn

Gentlemen:

Attached is a copy of COG Production LLC's (COG)'s Application for a Non-standard Proration Unit under the Copperhead 31 Federal Com #21H well, the SHL of which is located in Sec. 30-T26S-R39E, Eddy County, New Mexico. You are being provided a copy of this Application per OCD's requirement to notify the operators and/or interest owners of the affected offset acreage. If you have any objection to this Application, notification should be given to OCD within 20 days of receipt of this letter.

COG is seeking approval of the non-standard unit due to the change of pool rules in this area. The new Purple Sage; Wolfcamp (gas) pool rules would require acreage dedication of the entire E/2 of Section 30, along with the N/2NE/4, Lot 6 and Lot 7 of Section 31 under the referenced well. COG's existing Copperhead 31 Federal #3H well has an acreage dedication of the E/2E/2 of Section 30 and the NE/4NE/4, Lot 7 of Section 31. In order to prevent overlapping dedicated acreage under two diverse ownership wells, approval of a non-standard proration unit for the #21H well will be needed.

Please note, the federal APD for this well is not approved at the time of this writing. COG does have an approved state APD, however, and the well name on that APD is Copperhead 31 Fee Com #21H. Should that federal APD not be approved, the proration unit acreage dedication will also exclude Lot 6 of Section 31. Due to the nature of this situation, you will be receiving two notices, as COG is also applying for a non-standard proration under the fee well name.

To Whom It May Concern:

COG Production LLC, ("COG") has requested administrative approval of an application for a Non-standard Proration Unit for the Copperhead 31 Federal Com #21H. In an effort to expedite the approval of COG's application, OXY hereby waives its right to the 20 day notification period and does not object to COG's application as referenced above.

This waiver is contingent upon COG withdrawing its application for a Non-standard Proration Unit for the Copperhead 31 Fee Com #21H.

Very truly yours,
