The perms for the Elliott B Federal #16 are as follows:

Penrose-Skelly Grayburg 3720 – 3809
San Andres 3886 – 3809

Cole State #7 – Yes, I intend to send the allocation percentages are the well is completed on a form C-103.

I am citing DHC-3633 as a reference case because I thought we were supposed to cite a case that had already been approved for the same zones. Neither of these are amendments to existing DHC permits.

Subject: DHC applications

Hello Paula Hale:
We received your DHC applications for the Elliot B Federal #17 and for the Cole State #7.

Would you please:

- 1) Send the perforation depths for the Elliot well.
- 2) For the Cole State well, let me know if you intend to send the allocation percentages after completion of the new zone?
- 3) Why are you citing the DHC-3633 as the reference case for both of these? are either of these amendments to existing DHC permits?

Regards,

William V. Jones PE Engineering Bureau Oil Conservation Division Santa Fe
