**Attention: Joni Clark, Sr. Regulatory Specialist**

*RE: Administrative application (Division administrative application reference No. pTDS0-607553930) filed with the New Mexico Oil Conservation Division ("Division") in Santa Fe, New Mexico on March 16, 2006 for an exception to the well location provisions of the "Special Rules and Regulations for the Basin-Fruitland Coal (Gas) Pool," as promulgated by Division Order No. R-8768, as amended, for Burlington Resources Oil & Gas Company, L.P.'s ("Burlington") proposed Jose Jaquez Well No. 1-S or Jaquez Jose Well No. 1-S to be drilled as an infill coal gas well within an existing standard 320-acre lay-down gas spacing unit in the Basin-Fruitland Coal (Gas) Pool (71629) comprising the S/2 of Section 24, Township 30 North, Range 12 West, NMPM, San Juan County, New Mexico, 390 feet from the South line and 1680 feet from the East line (Unit O) of Section 24.*

Dear Ms. Clark:

Per your e-mail on Wednesday morning, March 22, 2006, and follow-up letter dated March 22, 2006 (see copies attached), the aforementioned administrative application is hereby dismissed and being returned to you. Thank you.

Sincerely,

Michael E. Stogner  
Staff Engineer

Dear Mr. Stogner:

Burlington Resources is in receipt of XTO's letter, dated March 20, 2006 objecting to our request for non-standard location on the Jaquez Jose #1S. We spent a large amount of time working with the surface owners and developers in this area before selecting this non-standard location.

Due to XTO's protest, however, Burlington Resources would like to withdraw our request at this time for a non-standard location approval. We will investigate other ways of drilling a Fruitland Coal well in this quarter-section, including the potential to possibly drill this well directionally.

Sincerely,

Joni Clark  
Sr. Staff Regulatory Specialist

Dear Mr. Stogner,

We are in receipt of XTO's letter, dated March 20, 2006 objecting to our request for Non-Standard location for the Jaquez Jose #1S. XTO did not contact us before filing the protest, so we have not had an opportunity to discuss them alternative ways of developing this property. We spent a large amount of time working with the surface owr and developers in this area before selecting this Non-Standard location. Due to XTO's protest, Burlington Resour would like to withdraw our request at this time. We will investigate other ways of drilling a Fruitland Coal well in th quarter-section, including the potential to possibly drill this well directionally. We will follow this email notice to yo with a written request to withdraw.

Re: Protest to Application for Administrative Approval of Unorthodox Location  
Burlington Resources Oil & Gas Company LP – Jaquez Jose #1S  
390' FSL and 1,680' FEL, Section 24, T30N, R12W  
San Juan County, New Mexico

Dear Mr. Stogner:

On this date, XTO Energy Inc. received notice of application by Burlington Resources Oil & Gas Company LP for an unorthodox location for the Jaquez Jose #1S Well. Due to the close proximity of the proposed well location to an existing XTO Fruitland Coal unit, please consider this notice that XTO Energy Inc. intends to protest Burlington's unorthodox location application.

Please advise of the date that this matter will be set for hearing.

Yours truly,

  
Christopher Spencer, CPL  
Landman

**Subject:** RE: Jose Jaquez #1-S

After extensive research to locate the Division Order approving the NSL application on the Jose Jaquez #1, it was found that no NSL application was ever filed on the parent well. We apologize for the oversight on our part, and I am therefore filing a NSL application this week on the Jose Jaquez #1. We realize the Jaquez Jose #1S cannot be approved before this application is approved also. Please let me know if you have any other questions. Thanks.

2006 MAR 16 AM 11:28

Dear Mr. Stogner:

Burlington Resources is applying for administrative approval of an unorthodox gas well location for the Basin Fruitland Coal. The subject well was staked at this location due to steep terrain, archaeology sites and future development of the surrounding area within the legal spacing window for the formations. The surface owner requested this location for a less visual impact, as well as noise abatement for the future development of this pristine area. As a result, no suitable location could be found within the window. Consequently, this location was staked non-standard for these formations to best fit the terrain, archeology and alleviate any surface owner concerns.

The following attachments are for your review:

- Approved application for Permit to Drill and C-102 at referenced location
- Offset operators / owners plat
- 9 Section plat
- Topographic map of Section 24
- Aerial Photography Map
- Archeological Site Map

Copies of this application are being submitted to offset operator / working interest owners by certified mail. Please let me know if you have any questions about this application.

Sincerely,

Jodi Clark  
Regulatory Specialist
