Attn: Mr. David Catanach, Director

Re: Request for AMENDMENT of Administrative Order SWD-1593 pertaining to Owl SWD Operating, LLC's McCloy SWD No.2; to Deepen Permitted Injection Interval; located in Section 15, T24S-R32E, NMPM, Lea County, New Mexico.

Dear Mr. Catanach,

The C-108 application and resulting permit specified a Devonian completion from a top of 16,500 feet to a maximum depth of 18,250 feet. Owl SWD Operating is currently drilling the subject well and in the course of mudlogging and other operations, it has been determined that the well should go deeper to include additional Silurian formation openhole interval; to a maximum depth of 18,750 feet.

As this is considered a major modification to the permit, legal notice will be published in the September 30th edition of the Hobbs News-Sun and, all affected parties have been noticed via U.S. certified mail. This amendment request package also include a current drilling wellbore diagram with the proposed total depth.

At this time, Owl respectfully requests an additional 500 feet of total depth amendment to the permit.

If you or your staff has any questions, please do not hesitate to call or email me.

Best regards,

Ben Stone, SOS Consulting, LLC
Agent for Owl SWD Operating, LLC
