NATURE OF RELEASE

Type of Release: Natural Gas	Volume of Release 465 MCF	Volume Recovered 0
Source of Release Pipeline	Date and Hour of Occurrence 05-09-18 11:30 AM	Date and Hour of Discovery 05-09-18 11:30 AM
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?	
By Whom?	Date and Hour	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	
If a Watercourse was Impacted, Describe Fully.* N / A		
Describe Cause of Problem and Remedial Action Taken.* DCPM was notified of a possible line leak on 05/09/18 by landowner to DCP Midstream. Natural Gas release into atmosphere. Minimal condensate were present and lines were shut in by operators.		
Describe Area Affected and Cleanup Action Taken.* DCPM construction crew repaired the line with 8" steel 2 joints to be on 05/15/18 by replacing 1 joint of 40' steel pipe. The line was put back in service on 4/24/18. No field remediation was required.		
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health, or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Crystal and Mike

Please see attached C-141 initial and closure request. All results are below standards.

DCPM construction crew repaired the line with 8" steel 2 joints to be on 05/15/18 by replacing 1 joint of 40' steel pipe. The line was put back in service on 5/16/18. No remediation was required due to atmosphere release only.
