ADMINISTRATIVE ORDER DHC-3701

BP America Production Company
PO Box 3092
Houston, TX 77253

Attention: Mary Corley

Warren A LS Well No. 1
API No. 30-045-07142
Unit K, Section 24, Township 28 North, Range 9 West, NMPM,
San Juan County, New Mexico
Undesignated Otero-Chacra Gas (82329),
Blanco-Mesaverde Prorated Gas (72319), and
Undesignated South Blanco-Pictured Cliffs Prorated Gas (72439) Pools

Dear Ms. Corley:

Reference is made to your recent application for an exception to Rule 303.A. of the Division Rules and Regulations to permit the above-described well to commingle production from the subject pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303.C., and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion or otherwise required separation of the zones is hereby placed in abeyance.

In accordance with Division 303C.(1)(f), the production attributed to any commingled pool within the well shall not exceed the allowable applicable to that pool.

Assignment of allowable to the well and allocation of production from the well shall be done using the subtraction method. The Pictured Cliffs and Mesaverde production shall be projected using the currently existing decline rates for each of these formations – as outlined in the application for this permit. The balance of the well's production shall be allocated to the Chacra formation.

REMARKS: The operator shall notify the Aztec District Office of the Division upon implementation of commingling operations.

Pursuant to Rule 303C(2), the commingling authority granted herein may be rescinded by the Division Director if conservation is not being best served by such commingling.

Approved at Santa Fe, New Mexico on May 2, 2006.
