ADMINISTRATIVE ORDER DD-7 (SNSL)

Gentlemen:

Under the provisions of Rule 111 (C) and (D), Sage Energy Company made application to the New Mexico Oil Conservation Division on February 4, 1985, for permission to directionally drill and complete for production the Cities Services State Well No. 2.

The Division Director Finds That:

(1) The application has been duly filed under the provisions of Rule 111 (D) of the Division Rules and Regulations;

(2) Satisfactory information has been provided that all offset operators have been duly notified;

(3) The applicant, Sage Energy Company, is the owner and operator of the Cities Service State Well No. 2, the unorthodox surface location of which is 460 feet from the South line and 1980 feet from the East line of Section 2, Township 17 South, Range 34 East, North Vacuum Abo, Pool, Lea County, New Mexico.

(4) The applicant seeks to directionally drill said well by kicking off from the vertical at a depth of approximately 1940 feet and drilling in such a manner as to penetrate the Abo formation within 50 feet of a point 460 feet from the South line and 1680 feet from the East line of Section 2.

(5) The S/2 SE/4 of Section 2 should be dedicated to the well.

(6) The applicant should be required to determine the subsurface location of the bottom of the hole by means of a continuous multi-shot directional survey conducted subsequent to said directional drilling, if said well is to be completed as a producing well.

(7) Approval of the subject application will prevent the drilling of unnecessary wells, avoid the augmentation of risk arising from the drilling of an excessive number of wells, and otherwise prevent waste and protect correlative rights.

IT IS THEREFORE ORDERED THAT:

(1) The applicant, Sage Energy Corporation, is hereby authorized to directionally drill its Cities Services State Well No. 2 from an unorthodox surface location 460 feet from the South line and 1980 feet from the East line of Section 2, Township 17 South, Range 34 East, North Vacuum Abo Pool, by kicking off from the vertical at a depth of approximately 1940 feet, and drilling in such a manner as to penetrate the Abo formation within 50 feet of a point 460 feet from the South line and 1680 feet from the East line of Section 2.

PROVIDED HOWEVER, that prior to the above-described directional drilling, the applicant shall establish the location of the kick-off point by conducting a continuous multi-shot directional survey of the well.

PROVIDED FURTHER, that subsequent to the above-described directional drilling, should said well be a producer, a continuous multi-shot directional survey shall be made of the wellbore from total depth to the kick-off point with shot points not more than 100 feet apart; that the operator shall cause the surveying company to forward a copy of the survey report directly to the Santa Fe office of the Division, P. O. Box 2088, Santa Fe, New Mexico 87501, and the operator shall notify the Division's Hobbs District Office of the date and time said survey is to be commenced.

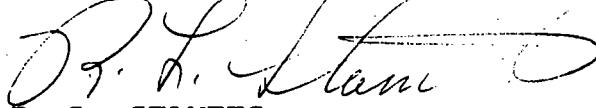

(2) Form C-105 shall be filed in accordance with Division Rule 1105 and the operator shall indicate thereon true vertical depth in addition to measured depths.

(3) The S/2 SE/4 of said Section 2 shall be dedicated to the subject well.

(4) Jurisdiction of this cause is retained for the entry of such further orders as the Division may deem necessary.

DONE at Santa Fe, New Mexico, on the day and year
hereinabove designated.

ADMINISTRATIVE ORDER DD- 7 (SNSC)

Gentlemen:

Under the provisions of Rule 111 (C) and (D), SAGE ENERGY COMPANY made application to the New Mexico Oil Conservation Division on FEBRUARY 4, 1985, for permission to directionally drill and complete for PRODUCTION the CITIES SERVICES STATE No. 2.

The Division Director Finds That:

(1) The application has been duly filed under the provisions of Rule 111 (D) of the Division Rules and Regulations;

(2) Satisfactory information has been provided that all offset operators have been duly notified;

(3) The applicant, SAGE ENERGY COMPANY, is the owner and operator of the CITIES SERVICES STATE No. 2, the UNORTHODOX surface location of which is 460 feet from the SOUTH line and 1980 feet from the EAST line of Section 2, Township 17 SOUTH, Range 34 EAST, NORTH VACUUM A80 Pool, LEA County, New Mexico.

(4) The applicant seeks to directionally drill said well by kicking off from the vertical at a depth of approximately 1940 feet and drilling in such a manner as to penetrate the A80 formation within 50 feet of a point 460 feet from the SOUTH line and 1680 feet from the EAST line of Section 2.

(5) The S/2 SE/4 of Section 2 should be dedicated to the well.

(6) The applicant should be required to determine the subsurface location of the bottom of the hole by means of a continuous multi-shot directional survey conducted subsequent to said directional drilling, if said well is to be completed as a producing well.

(7) Approval of the subject application will prevent the drilling of unnecessary wells, avoid the augmentation of risk arising from the drilling of an excessive number of wells, and otherwise prevent waste and protect correlative rights.

IT IS THEREFORE ORDERED THAT:

(1) The applicant, SAGE ENERGY CORPORATION, is hereby authorized to directionally drill its CITIES SERVICES STATE No. 2 from an UNORTHODOX surface location 460 feet from the SOUTH line and 1980 feet from the EAST line of Section 2, Township 17 SOUTH, Range 34 EAST, NORTH Vacuum ABO Pool, by kicking off from the vertical at a depth of approximately 1940 feet, and drilling in such a manner as to penetrate the ABO formation within 50 feet of a point 460 feet from the SOUTH line and 1680 feet from the EAST line of Section 2.

PROVIDED HOWEVER, that prior to the above-described directional drilling, the applicant shall establish the location of the kick-off point by conducting a continuous multi-shot directional survey of the well.

PROVIDED FURTHER, that subsequent to the above-described directional drilling, should said well be a producer, a continuous multi-shot directional survey shall be made of the wellbore from total depth to the kick-off point with shot points not more than 100 feet apart; that the operator shall cause the surveying company to forward a copy of the survey report directly to the Santa Fe office of the Division, P. O. Box 2088, Santa Fe, New Mexico 87501, and the operator shall notify the Division's HOBBS District Office of the date and time said survey is to be commenced.

(2) Form C-105 shall be filed in accordance with Division Rule 1105 and the operator shall indicate thereon true vertical depth in addition to measured depths.

(3) The S/2 SE/4 of said Section 2 shall be dedicated to the subject well.

(4) Jurisdiction of this cause is retained for the entry of such further orders as the Division may deem necessary.

Gentlemen:

Re: Sage Energy Company - Cities Service State No. 2A, Lea County, New Mexico

Sage Energy company respectfully requests administrative approval to re-drill the referenced well. We propose to kickoff from 1940' and drill to a bottom hole location 300' east of the original location.

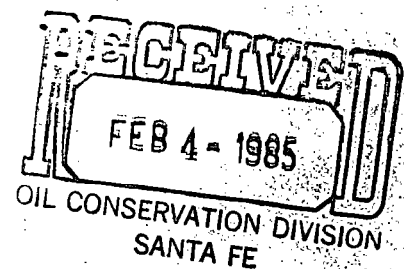

The required plat is attached and all offset operators have been furnished with a copy of this application by mail.

If additional information is required, please advise.

Re: Sage Energy Company - Cities Service State No. 2-A, North Vacuum Abo Field,
Lea County, New Mexico

Dear Sir:

The casing has parted and collapsed in the referenced well. It is our intent to re-drill this well pursuant to the enclosed Form C-103.

Sage Energy respectfully request that you execute two copies of the enclosed waiver, forward one to the New Mexico Oil Conservation Commission and return one copy to this office in the stamped envelope enclosed.

Should you have any questions, please contact us at the earliest possible time.

Very truly yours,

Frances Holzgraf
