Attention: Steward E. Rogers

RE: Injection Pressure Increase Rohmer SWD Well No. 1 Eddy County, New Mexico

Dear Mr. Rogers:

Reference is made to your request dated January 9, 1995, to increase the surface injection pressure on the Rohmer Well No. 1. This request is based on a step rate test conducted on the well on December 13, 1994. The results of the test have been reviewed by my staff and we feel an increase in injection pressure on the well is justified at this time.

You are therefore authorized to increase the surface injection pressure on the following well:

Well and Location	Maximum Injection Surface Pressure
Rohmer No. 1 1980' FNL & 1980' FWL Unit E, Section 23, Township 22 South, Range 27 East, NMPM, Eddy County, New Mexico	970 PSIG

VILLAGRA BUILDING - 408 Galistao

Forestry and Resources Conservation Division P.O. Box 1948 87504-1948 827-5830 Park and Recreation Division

Park and Recreation Division P.O. Box 1147 87504-1147 827-7485 2040 South Pacheco

Office of the Secretary 827-5950 Administrative Services

827-5925 Energy Conservation & Management 827-5900

> Mining and Minerals 827-5970

Oil Conservation 827-7131 The Division Director may rescind this injection pressure increase if it becomes apparent that the injected water is not being confined to the injection zone or is endangering any fresh water aquifers.

Sincerely,

William J. LeMay

Director
