*RE: Injection Pressure Increase
Lovington San Andres Unit
8 Wells
Lea County, New Mexico*

Dear Sir:

Reference is made to your request dated August 25, 1992, to increase the surface injection pressure on 8 wells in the Lovington San Andres Unit. This request is based on a step rate tests conducted on these wells from July 28 to August 3, 1992. The results of the tests have been reviewed by my staff and we feel an increase in injection pressure on these wells is justified at this time.

You are therefore authorized to increase the surface injection pressure on the following wells:
