Attention: L.C. McClure

RE: Injection Pressure Increase
Guy A. Reid Well No. 2
Eddy County, New Mexico

Dear Mr. McClure:

Reference is made to your request dated July 18, 1988, to increase the surface injection pressure on the Guy A. Reid SWD Well No. 2. This request is based on a step rate test conducted on the well on July 6, 1988. The results of the test have been reviewed by my staff and we feel an increase in injection pressure on the well is justified at this time.

You are therefore authorized to increase the surface injection pressure on the following well.

WELL AND LOCATION

MAXIMUM INJECTION
SURFACE PRESSURE

Guy A. Reid SWD Well No. 2
2116 FSL & 862 FWL (Unit L)
Section 24, T-24 South,
R-28 East, Eddy County, New
Mexico

970 PSIG

The Division Director may rescind this injection pressure increase if it becomes apparent that the injected water is not being confined to the injection zone or is endangering any fresh water aquifers.

Sincerely,

William J. LeMay
Director
