Attention: Tim L. Chase

*RE: Injection Pressure Increase
Wersell Federal Well No. 2
Eddy County, New Mexico*

Dear Sir:

Reference is made to your request dated June 6, 1991, to increase the surface injection pressure on the Wersell Federal Well No. 2. This request is based on a step rate test conducted on the well on May 29, 1991. The results of the tests have been reviewed by my staff and we feel an increase in injection pressure on the well is justified at this time.

You are therefore authorized to increase the surface injection pressure on the following well.

WELL AND LOCATION

MAXIMUM INJECTION
SURFACE PRESSURE

Wersell Federal Well No. 2
Unit D, Section 4, T-22 South, R-27 East, NMPM
Eddy County, New Mexico

701 PSIG

Unocal Corporation
July 15, 1991
Page 2

The Division Director may rescind this injection pressure increase if it becomes apparent that the injected water is not being confined to the injection zone or is endangering any fresh water aquifers.

Sincerely,

William J. LeMay
Director
