RE: Injection Pressure Increase  
Middle Mesa SWD No. 1  
San Juan County, New Mexico

Dear Mr. Abbey:

Reference is made to your request dated April 19, 1991, to increase the surface injection pressure on the Middle Mesa SWD Well No. 1. This request is based on a step rate test conducted on the well on April 18, 1991. The results of the test have been reviewed by my staff and we feel an increase in injection pressure is justified at this time.

You are therefore authorized to increase the surface injection pressure on the following well:

WELL AND LOCATION	MAXIMUM SURFACE INJECTION PRESSURE
Middle Mesa SWD No. 1 Unit G, Section 32, Township 31 North, Range 7 West, NMPM, San Juan County, New Mexico	2150 PSIG

The Division Director may rescind this injection pressure increase if it becomes apparent that the injection water is not being confined to the injection zone or is endangering any fresh water aquifers.

Sincerely,

William J. LeMay  
Director
