Attention: Larry Sanders

RE: *Injection Pressure Increase
San Juan 29-6 Unit Well No. 301
San Juan County, New Mexico*

Dear Mr. Sanders:

Reference is made to your request dated November 29, 1990, to increase the surface injection pressure on the San Juan 29-6 Unit Well No. 301. This request is based on a step rate test conducted on the well on November 29, 1990. The results of the test have been reviewed by my staff and we feel an increase in injection pressure on the well is justified at this time.

You are therefore authorized to increase the surface injection pressure on the following well.

WELL AND LOCATION

MAXIMUM INJECTION
SURFACE PRESSURE

San Juan 29-6 Unit Well No. 301
Unit P, Section 2, Township 29 North,
Range 6 West, NMPM, San Juan County,
New Mexico.

2100 PSIG

The Division Director may rescind this injection pressure increase if it becomes apparent that the injected water is not being confined to the injection zone or is endangering any fresh water aquifers.

Sincerely,

William J. LeMay
Director
