Dear Mike:

Marbob Energy Corporation respectfully requests administrative approval for an unorthodox location of the Western Hawk State Com #2 well as referenced above. Attached is an OCD Form C-102 showing the proposed oil well spacing unit along with a map showing the adjoining spacing units. The well is unorthodox to the North boundary of the SW/4NW/4. This location will permit us to drill a longer horizontal lateral through the formation within the orthodox offsets of 330 feet from the exterior boundaries. It takes about 450 feet to build our curve. This location keeps us on lease but maximizes the orthodox length of the lateral. We will not have any perforation at an unorthodox location. The affected proration unit is operated by Marbob Energy Corporation and our partner in that lease is Southwestern Energy Production Company. All of the other offset proration units are owned by Southwestern and us. A copy of their waiver letter is enclosed for your review. All burdens, including royalty are common between the proposed proration unit and the affected offset proration unit. We would request your approval of this unorthodox location.

Thank you for your consideration of this. If you need to talk with me further please call me at 800-748-1550.

Sincerely,

*Raye Miller*

Dear Mr. Cornish:

Enclosed is a copy of the unorthodox location that has been sent to the New Mexico Oil Conservation Division for an unorthodox location on the above referenced well. We would request you sign the waiver below and fax it back to us so we can submit it with the application.

If you have any questions please feel free to contact me. Thank you and have a great day!

Sincerely,

Nancy Bratcher  
Land Department

Southwestern Energy Production Company as a working interest owner in the proration unit and all of the offset proration units has no objection to the proposed location and in fact supports the drilling of this location.
