## **Administrative Order NSL-5395**

Dear Mr. Corcoran:

Reference is made to the following: (i) your application dated May 17, 2006 that was submitted to the New Mexico Oil Conservation Division ("Division") in Santa Fe, New Mexico on May 19, 2006 (*administrative application reference No. pMES0-614250277*); and (ii) the Division's records in Aztec and Santa Fe: all concerning CDX Rio, L.L.C.'s ("CDX") request for exceptions to the well location requirements provided within the:

(A) "*Special Rules for the Blanco-Mesaverde Pool*," as promulgated by Division Order No. R-10987-A, issued in Case No. 12069 and dated February 1, 1999, as amended by Division Order No. R-10987-A (1), dated December 2, 2002; and

(B) "*Special Rules for the Basin-Dakota Pool*," as promulgated by Division Order No. R-10987-B, issued in Case No. 12290 and dated June 30, 2000, as amended by Division Orders No. R-10987-B (1), dated August 10, 2000, and R-10987-B (2), dated January 29, 2002.

Gas production from the Blanco-Mesaverde and Basin-Dakota Pools is to be included within an existing standard 320-acre stand-up gas spacing and proration unit ("GPU") for both pools comprising the E/2 of Section 24, which production is currently dedicated to CDX's: (i) Jicarilla "C Well No. 5 (API No. 30-039-08160), located at a standard gas well location 1850 feet from the South line and 790 feet from the East line (Unit I) of Section 24; (ii) Jicarilla "C" Well No. 5-M (API No. 30-039-22315), located at a standard infill gas well location 960 feet from the North and East lines (Unit A) of Section 24; and (iii) Jicarilla "C" Well No. 5-F (API No. 30-039-29591), located at a standard infill gas well location 1400 feet from the North line and 1980 feet from the East line (Unit G) of Section 24.
