Dear Mr. Stogner:

XTO Energy Inc. hereby requests administrative approval for an unorthodox location for the above referenced well. Attached for your reference are the following exhibits:

1. Well location plat (NMOCD Form C-102)
2. Topographic map
3. Ownership map
4. Production map showing Dakota, Mesaverde, & Mancos Formation Gas Production

Based on the survey section width of 5311.8', our well is located 655.9' from the center section line, being less than 5' from a standard location. It was our intention to locate the well at a standard location as far as possible from the Jicarilla Apache #16 (existing Dakota/Mesaverde producer in the quarter section). We apologize for the oversight and are now requesting a non-standard exception prior to completing the well. In addition to the original target zones, Basin Dakota and Blanco Mesaverde, we would also like to complete the Wildcat Basin Mancos.

Copies of this application are being submitted to offset operator / working interest owners by Federal Express.
