Re: Down hole commingling, and measurement of
Hydrocarbon Production for:
Cholla State #1
Section 4, T17S, R33E
Lea County, New Mexico

COG Operating LLC as operator of the aforementioned well respectfully requests administrative approval for down hole commingling and measurement of production.

COG proposes to commingle Maljamar GB-SA and Maljamar Paddock production in the Cholla State #1 well (V-6331). Production of both pools will be measured at the Cholla State TB located in the SW/4 SW/4, Sec. 4 T17S R33E. This lease has common interest in both pools. Notification has been made to all parties owning an interest in this lease, including the oil purchaser, of the intent to commingle. Testing will be conducted and allocation percentages will be sent to OCD after completion of this well. The subtraction method will be used to allocate production based on increased production from the GB-SA formations.

Should you require any additional information concerning this application, please call Jerry W. Sherrell at the above number. Thank you for your consideration of this request.

Sincerely,

COG OPERATING LLC
