Attachments:

Thanks very much for taking a look at this application (and approving some of the others). The #6 well unorthodox location and dedication to the spacing unit was approved in Admin Order NSL-2873-A. However, NSL-2873-B omitted the #6 well from the unit because the well was P&A'd. Would you like for me to amend our application to include a request for the UWL?

I did check with Petrohawk and the spacing unit to the west towards which the well is encroaching is also operated by Petrohawk and ownership is common pursuant to Rule 1210.

Thanks again,
 Ocean

RE: State "A" A/C-3 Well No. 6 (30-025-09302), located 1980' FSL & 2310' FEL (J) Sec. 10-T23S-R36E

In reviewing your request to Simultaneous Dedicate the #6 well into the existing 320-acre E/2 spacing unit. Being only 330 feet from the outer boundary of this unit and quarter section, it's obvious that this well is unorthodox [see Special Rule 3 (A) (2)].

Probably not, but is the notice you provided adequate to cover this unorthodox location [see Div. Rule 1210.A (2)] that is affecting acreage that the applicant is operating?

Subject: Petrohawk application for Simultaneous Dedication

Mr. Stogner:

We filed an application on behalf of Petrohawk Operating on June 21, 2006 for administrative approval of infill gas wells and simultaneous dedication in S8-T22S-R36E (in addition to 3 other similar applications). Petrohawk has informed me that they have a rig available on August 1 which they would like to utilize. Would you please let me know the status of this application and if you have any questions or concerns?

As always, I appreciate your time and attention to this matter.

Thank you,
 Ocean
