Re: State H-17 # 2 (API # 30-025-06137) Drilled Jan. 12, 1937

We would buy this well from the current operator and re-enter for a Eumont Gas well recompletion.

This well is in Unit D, Sec 17, T-208, R-37E (330'FNL & 330'FWL).

is the spacing offset going to be a problem in the Eumont Pool?

Accord to my records this will be an infill well to an existing 80-acre Eumont NSP currently dedicated to Plantation's Wulff State #2 (30-025-06138). A well density exception and an unorthodox gas well location approval will be required.

Sorry about the misspelling on the previouse order, attached is a corrected draft order.

Re: Myers B Federal # 34

Just wanted to check on the Myers B Federal # 34 approval, since we sent it June 16, 2006.

Also, the State H-17 # 2 was sent in July 13, 2006, still awaiting the 20 days.
