By Whom?	Alan Standfer	Date and Hour	10/2/06 at 10:00 AM		
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\* PinHole leak in the injection line. A crew was called out to replace the joint with the leak. No further action will be taken.

Describe Area Affected and Cleanup Action Taken.\* The affected area is sloping and the produced water covered an area 3' wide x 1500' long. The water quickly absorbed into the sloping rocky terrain. The Woolworth Estate was notified of the spill. No clean up action is necessary.

*Please note clean up is necessary. You need to submit a plan by 11/15/06*

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
