Mr. A. L. Porter, Secretary and Director
Oil Conservation Commission
Box 871
Santa Fe, New Mexico

Dear Mr. Porter:

This is to request administrative approval of an unorthodox location in the Aztec Pictured Cliffs Pool (Extension), San Juan County, New Mexico.

This well, our Lackey No. 6-B is to be located 900' from the North line and 560' from the West line of Section 21, Township 28 North, Range 9 West, N.M.P.M., San Juan County, New Mexico. The major portion of this 1/4 Section consists of a series of sandstone bluffs which would make the cost of roads and location extremely expensive.

This well is to be a Pictured Cliff test and is offset on the NE/4 of Section 20 by a lease held by El Paso Natural Gas Company; therefore, approval of other operators have not been sought.

I am enclosing two copies of the Certified Well Location Plat sketching terrain conditions and two copies of our Intention to Drill.

Thank you for your attention in this matter.

Yours very truly,

E. J. Coel
Senior Petroleum Engineer

Well No. **6-B** is located **900** ft. from **[N]** line and **560** ft. from **[E]** line of sec. **21**
NW/4 Section 21 **28N** **9W** **NMPM**
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)
Aztec P.C. (Extension) **San Juan** **New Mexico**
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is **6027** ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

It is intended to drill a well thru the Pictured Cliff formation using rotary tools and to perforate and water fracture possible producing zones.

Casing Program:

9 5/8" at 120' with 125 sacks regular cement circulated to surface.
5 1/2" at 2340' with 75 sacks regular cement, 75 sacks Pozmix.

The NW/4 of Section 21 is dedicated to this well.
NW/4 Sec. 21 SF 077106.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
