Dear Sir:

We are proposing to drill our Charlie-Pah No. 4 to the Pictured Cliffs formation of the South Blanco Field, San Juan County. Due to the rough terrain this well was staked 1400' from the east line and 1750' from the south line of Section 12-27N-9W. All of Section 12 is Skelly leased.

Request is respectfully made for an administrative approval for the location of the well at the above proposed location due to such rough terrain.

Yours very truly,

George W. Selinger
